HAPPY RECONCILIATION AFTER LONG SEPARATION

Misunderstanding Between Husband and Wife, Due to Scandalous Tongues, Righted In This City.

JOYOUS MEETING IN CHIEF THOMPSON'S OFFICE

Richard Gray Left His Home In Parkersburg Last November—Wife Traced Him Here and Came on With Her Little Daughter, Confident That an Explanation Would Right Matters—She Was Not Disappointed.

A reconciliation occurred at police headquarters last evening in which a husband, who had been separated from his wife and child for more than six months, was restored to them, and Chief of Police Thompson was largely responsible for the success of the undertaking.

Dick Gray, with his wife and little daughter, Lillian, have lived in Parkersburg, W. Va., for many years. Mr. Gray had steady employment and the little family was a happy one until last November, when some meddlesome busybody began to make trouble. The husband's mind was poisoned against his wife, and he made the mistake that far too often occurs of accepting the statements of scandal mongers without taking the trouble to investigate the truth.

He left his home late in November and his injured wife and daughter were left almost destitute for days. Finally Mrs. Gray secured information which led her to believe that her husband was in East Liverpool, and on December 5 Chief Thompson received a letter from the lady requesting him to locate the missing man. The police department were not long in securing the desired information, and the deserted wife was made acquainted with the facts.

POTTERS' AGREEMENT TERMINATES A YEAR FROM JULY 1.

No Interruption in Work Will Result from Disputes During That Time.

President Hughes, of the Brotherhood, has not yet given out the committees who will act with the manufacturers in the settlement of three clauses in the list recently considered by the conference committees.

It is expected that the announcement will be made tomorrow, and the work will be commenced at once, as it is the desire of both sides to have the questions adjusted as soon as possible.

When the committees make their report on the matters in their hands, both the manufacturers and men may return to their several vocations with the positive assurance that there will be no interruption to work from disputes, as the agreement entered into, and which has been signed by both parties, will be in force until July 1, 1902. This was settled before the conference ended, and is a source of much satisfaction to the working men.

MANY OFFENDERS PAY THE PENALTY

Mayor Davidson's Court Was a Busy Spot Yesterday Morning.

MORE CHARGES OF VAGRANCY

Maggie Malone Was Disorderly Saturday Night, But Friends Secured Her Release on Sunday Evening. "Red" Moore in Trouble.

After three days in which there was not a single arrest made by the police, affairs at headquarters took on their usual activity on Saturday night.

Maggie Malone resides in Mulberry alley, and Saturday night rushed a few "growlers" down to the house. The stuff went to her head and she became disorderly. Chief Thompson and Officer Mahoney arrested her and she spent the night in jail. Mayor Davidson gave the prisoner a hearing Sunday morning and she was fined \$6.60. Her friends secured her release Sunday evening.

When Charles Chapin got his pay Saturday night he at once proceeded to blow it in for booze. He wound up in the West End on the steps of Streets' residence on Fairview street. The patrol was called and Charley was taken to the station house by Fireman Woods. His honor assessed a fine of \$5.60 Sunday morning, which he was unable to pay and he lingered behind the bars until Sunday night when his employer stood good for his fine.

Officers Aufderheide and Davidson captured William Wherry, known among his friends as "Snake Eater Bill," on Second street Saturday night. Bill had gone the limit and was very quarrelsome. The charge against him was disorderly conduct, and the mayor attached a penalty of \$6.60, which Wherry will be required to pay before he regains his liberty.

"Red" Moore did not heed Mayor Davidson's warning a few days ago, when he was told to leave town, and Officer Mahoney run him in Saturday night on a vagrancy charge. He was arraigned on Sunday morning and pleaded not guilty. He says he proposes to stand pat.

Jack Daley had been out all night and when arrested by Officer Mahoney Sunday morning near the Thompson pottery, was in a beastly state of intoxication. He was placed in jail and allowed to sleep off the jag.

Sunday evening he asked for a hearing and it was discovered that he owed \$4.60 on an old fine. With the \$6.60 imposed upon this occasion he was indebted to the city in the sum of \$11.20. The mayor informed Jack he would have to square the whole bill before he was allowed to go, and he went back to jail.

Thom Kinney and Jack Housemiller were acting disorderly at the corner of Sixth and West Market street Sunday morning. Chief Thompson's attention was called to the matter and he promptly took them in. Mayor Davidson gave the pair a hearing last evening, and they were fined the minimum, \$6.60. They gave an order on Contractor Wallace for the amount and were released.

After arranging for the release of Maggie Malone Sunday night, her friends went to her home in Mulberry alley to pay her a visit. They were enjoying themselves about midnight when "Chip" Gamble got mad about the way he was treated and began to curse in a loud voice. Officers Davidson and Dawson arrested him and he put up \$10 for his appearance at 7 o'clock this evening.

Chief Thompson arrested Frank Gainley in the Diamond last evening on a charge of vagrancy. Gainley and his gang have been "panhandling" about the city for several days, and in some instances have frightened women until they were compelled to make complaint.

He pleaded not guilty when arraigned this morning and he and "Red" Moore will be given a hearing this evening.

Tomorrow morning at 10 o'clock the senatorial convention of the Twenty-second joint district, including Columbiana, Jefferson, Belmont and Harrison counties, will convene at Steubenville.

The meeting will be devoid of exciting contests, as there will be no opposition to the selection of Senator Archer, of Belmont county.

Owing to the adjustment under the recent census, this district is entitled to an additional representative in the senate and Columbiana county has a candidate in the person of Attorney Charles C. Connell, of Lisbon, and he will be nominated.

Columbiana county, with its 103 delegates, will go solid for the Lisbon man, and to the present no candidates have announced from the other counties, so that the convention will simply go through the usual formalities, organizing and adopting the stereotyped resolutions endorsing the state and national administrations, name the two candidates mentioned and adjourn.

Liverpool township is entitled to 28 delegates and will have the full quota present.

The Local Society Takes Action And Appoints Committees—The Event to Be a Great One With a Large Attendance.

At a meeting of the East Liverpool Turner society held in their hall yesterday afternoon, action was taken which will bring the annual turnfest for 1902 to this city.

It has been understood for several weeks that East Liverpool could get the meeting if it wanted it, but the society here was not disposed to take up the matter until they had made a thorough investigation of the situation and had ascertained what accommodations and other arrangements would be necessary for the entertainment of the immense crowd who attend these events.

They took considerable time in going over the ground and the action of yesterday was taken only after they had heard reports from the various committees that had been appointed to make inquiries and secure information.

An executive committee was appointed who will have entire charge of the affair and to whom all matters pertaining to the turnfest must be referred. The committee is composed of William Leibschner, Charles Berg, Henry Joseph, John B. Hoffman, Peter Reisberger, Max Canne.

The meeting will be an immense one, taking in all the societies in the principal cities of western Pennsylvania and eastern Ohio, and will attract a crowd equal to or larger than that which attended the Elks carnival here a few years ago.

The meeting will begin on Monday of the first week in July, and continue throughout the week.

From time to time since then the

chief of police has received communications from Mrs. Gray, which, from their tone and feeling, left no doubt in his mind that there was a misunderstanding between the two that should be made clear.

The wife became weary of waiting and last week sold everything they owned, having determined to come to East Liverpool and make an explanation in person.

She arrived here at 6 o'clock last evening and went direct to police headquarters, determined to lose no time in seeking out her husband.

The police were all instructed to keep a lookout for him as they went out on their beats, but this was not necessary, as the object of their search passed along Third street and was seen by Mrs. Gray.

Chief Thompson called him and the scene that followed was pathetic and extremely touching. In a very few minutes the couple had exchanged confidences and made explanations which should have been forthcoming many weeks ago.

When the little family emerged from the city building every face was beaming and each countenance wore a smile it had not known since their troubles began. Chief Thompson smiled, too.

Gray has a position at one of the potteries and the family will remain here.

A few days ago a new gas stove was placed in the office of Checkman Charles Brown. On the second floor of the building freight clerks William Leech, John B. Maule, C. C. Hill and Fred Oschman were working. It was a little cold and the clerks called to Mr. Brown to give them a little heat, and when he struck a match the explosion followed.

Mr. Brown was thrown out through the door a distance of about 20 feet, only stopping when he came in contact with a number of boxes on the platform and received a bad shaking.

Of the Question in the Plumbers' Strike Set Forth in the Following Statement Which is Made by the Union.

The committee representing the journeymen plumbers' local Friday evening gave out the following statement regarding certain reports that have been circulated recently regarding the new scale that has been presented to the master plumbers, and which has not been signed by all the latter. The committee said:

It has been circulated that should any person having work that would take but an hour or two, the parties having the work done would have to pay for a full day and we, the journeymen plumbers, wish to correct this. All we ask is that if we start in the morning we be given a full day's work, which can always be found in every plumbing shop in this city. All that will be asked from parties having work done will be for the actual time it takes to go to and from the job and do the work and the material used. Anyone wishing information regarding the above will call at Strike Headquarters, in Fowler's hall, between 8 a. m. and 5 p. m.

We refer the public to those master plumbers who have signed the new scale regarding the truth of this statement, namely: Thomas F. Starkey Plumbing Co., A. C. Burrows, J. W. Jones, Reisinger Bros. and O. K. Cycle Co.

The Result Was Painful Burns Which Will Lay Him up For a Time.

Jesse Ormes, who is employed at the Ormes machine shop, met with a very painful accident Saturday evening. He was handling a ladle filled with molten metal which he upset. A part of the liquid fire dropped inside the top of a clumsily fitting shoe which he was wearing, and before it could be removed his foot was very severely burned.

A doctor was called who dressed the wound in a solution which partly alleviated the pain. He is resting easy today, but will be unable to be at work for some time.

THE JOURNEYMAN'S SIDE

Of the Question in the Plumbers' Strike Set Forth in the Following Statement Which is Made by the Union.

The committee representing the journeymen plumbers' local Friday evening gave out the following statement regarding certain reports that have been circulated recently regarding the new scale that has been presented to the master plumbers, and which has not been signed by all the latter. The committee said:

It has been circulated that should any person having work that would take but an hour or two, the parties having the work done would have to pay for a full day and we, the journeymen plumbers, wish to correct this. All we ask is that if we start in the morning we be given a full day's work, which can always be found in every plumbing shop in this city. All that will be asked from parties having work done will be for the actual time it takes to go to and from the job and do the work and the material used. Anyone wishing information regarding the above will call at Strike Headquarters, in Fowler's hall, between 8 a. m. and 5 p. m.

We refer the public to those master plumbers who have signed the new scale regarding the truth of this statement, namely: Thomas F. Starkey Plumbing Co., A. C. Burrows, J. W. Jones, Reisinger Bros. and O. K. Cycle Co.

Anthracite Miners Want Their Bills Passed by the Legislature.

MAY INVADE HARRISBURG

Depends on Whether a Committee of Pennsylvania Senate Intends to Hold Up Certain Labor Measures. Committee to See Snyder Today.

Shamokin, Pa., May 6.—A committee from the United Mine Workers' districts Nos. 1, 7 and 9, of the anthracite region, was expected to go to Harrisburg today to see Acting President Snyder, of the state senate. He was expected to inform them whether the senate committee intended holding up the labor bills or report them in the negative. In either event news will be sent to the coal region, whereupon the secretaries of the districts will notify the locals to hold mass meetings tonight in every town and village to prepare the men for mobilization preparatory to the invasion of Harrisburg.

Secretary Hartlein, of district No. 9, said that the men should be at the state capital by Wednesday night or Thursday. The men do not expect the authorities to interfere with them, despite a rumor that the militia would disperse them if the march started.

Hazleton, Pa., May 6.—It was estimated that the Hazleton region will furnish about 5,000 men on the march to Harrisburg if the leaders decide that such a move will be necessary to force through the legislature the bills endorsed by the United Mine Workers. Hazleton will be the point of mobilization for the Lehigh region.

From this city the men will march across the mountains to the Panther creek valley and thence to Pottsville, where they will join the Schuylkill forces. The foreigners are very enthusiastic and all are in readiness to move. Arrangements are being made to have drum corps and brass bands accompany the marchers. The matter of feeding the men on the march and on their arrival at the state capital has not yet been definitely settled.

GUERRILLA WARFARE.

Rebels in Colombia Were Carrying It On—Repulsed Attack of Government Troops.

Kingston, Jamaica, May 6.—Claude C. Mallet, the British consul at Panama, arrived here on the steamer Atrato on his way to England. Mr. Mallet was interviewed by the reporter of the Associated Press on conditions in Colombia and said that the revolution there had degenerated into guerrilla warfare, and that the strength of the rebels was not known.

One week perhaps 5,000 men are in the field, while the next week there will be but 1,000, as the rebels are in the habit of returning to their homes in order to gather supplies, and the following week they are out in full force again.

The Colombian government has taken the most strict precautions to guard the most important towns of the country, especially Panama, which is considered to be perfectly safe. In spite of the strong garrisons, however, the rebels occasionally manage to get near enough to the towns to inflict damage by sniping. No organized attack has been made during the past two months.

The country is altogether unsettled in consequence of the continuation of the struggle. Business is paralyzed, as the merchants are afraid to trade under the present conditions. Exchange in London is at 130, and on New York it is 140. The people in the interior of the country are suffering as a result of the trade stagnation.

The Colombian government, concluded Mr. Mallett, are exercising very strong precautions in order to prevent news affecting themselves from leaking out of the country.

Advices from other sources report heavy fighting last week in the interior of Savanilla and Barandilla.

The rebels repulsed an attack of the government forces with heavy losses on both sides.

TRACTION CARS COLLIDED.

About a Dozen People Were Injured at Akron, O.

Akron, O., May 6.—Two Northern Ohio traction cars collided at the foot of a steep hill on North Howard street and about a dozen people were injured. The two cars were loaded with passengers and were traveling close together. For some reason the brakes on the second car failed to work, and it dashed down the hill at a terrific speed, striking the forward car, which had stopped to take on passengers.

Strange to say, no one on the second car was injured except the motorman, Scott, who sustained serious internal injuries. The rear platform of the forward car was crowded and all on it were more or less injured. The more seriously injured are:

John Rausch, Dennis, left leg crushed so that amputation will be necessary.

John Hobacht, Akron, leg crushed; amputation necessary.

George Autenreith, Cuyahoga Falls, foot crushed.

Miss Georgia Copp, student, Akron, injured about hips.

William T. Sawyer, attorney, Akron, injured internally.

A. B. Scott, motorman, Akron, injured internally.

Sabbath Observance Almost Generally Forced at Omaha.

Omaha, Neb., May 6.—The Sunday closing orders issued by Mayor Moore were in most instances observed Sunday. Two saloonkeepers in outlying portions of the city were arrested for failing to bolt their side doors, and half a dozen bootblacks were also detected in the act of disturbing the Sabbath quiet. They were arrested, but were bailed out by "Mogie," the so-called king of the newsboys.

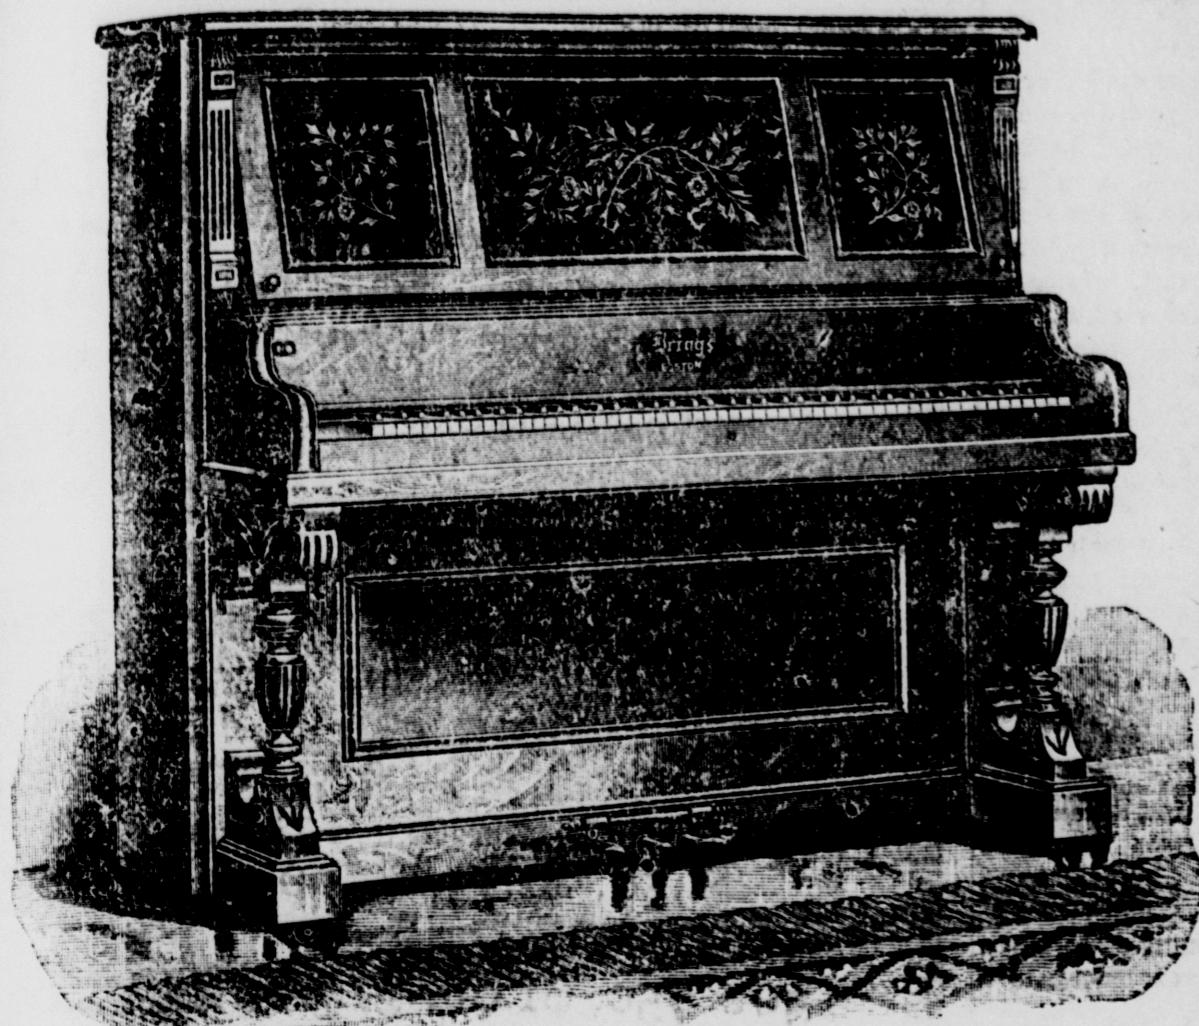

The mayor says he is satisfied with the operation of the orders which he laid down, but he has not decided just how stringent the directions for next Sunday will be.

Sabbath Observance Almost Generally Forced at Omaha.

Omaha, Neb., May 6.—The Sunday closing orders issued by Mayor Moores were in most instances observed Sunday. Two saloonkeepers in outlying porticos of the city were arrested for failing to bolt their side doors, and half a dozen bootblacks were also detected in the act of disturbing the Sabbath quiet. They were arrested, but were bailed out by "Mogie," the so-called king of the newsboys.

The mayor says he is satisfied with the operation of the orders which he laid down, but he has not decided just how stringent the directions for next Sunday will be.

The Trocadero theater remained open, but the Orpheum transferred its show to Council Bluffs.

Our trouser department may help you out until you are ready for that new suit.

GETTING A START IN LIFE.

If one would make a success of business or professional life, there is but one place for him to begin, and that is at the bottom. Carnegie, Frick, Schwab and a score of others who have become leaders in the business world, began there. So did President McKinley, Attorney General Knox and a majority of the members of the cabinet and members of congress. While not every lad who reaches success has been educated in the school of adversity, every one who rises to distinction has found that there is no royal road thereto. Millionaire's sons who expect to take their fathers' places as managers of great railroad systems are qualifying themselves for their future duties by donning overalls and working in roundhouses and shops or acting as engine-drivers. There are many and intricate details of the business they are to pursue, and the man who would make himself useful must make himself master of these details.

It is the little things that count; it is in them that savings may be effected and improvements suggested by men of brains and inventive genius.

Mastery of detail, which is an absolute essential to success, is gained only by diligence, hard work and close attention to business. The clerk or shop-hand who is afraid of doing more than barely enough to entitle him to a day's wages, who is watching the hands of the clock and longing for closing time, never rises to become a foreman or the head of a department. It is the youth who is willing and eager to work as long as there is work to do who gains recognition.

Next to honesty and truthfulness—prime essentials to all true success—patience and diligence are required of him who would gain promotion. "Seest thou a man who is diligent in business? He shall sit before kings." The kings of the business world were once common laborers. They would have remained so to this day had they been afraid of over-doing. It is not enough to begin at the bottom; one must begin there, but begin with the determination to make himself so valuable to his employers that they cannot afford to let him remain there.

GROWTH OF OUR EXPORTS.

A fact in which every American must feel pride and satisfaction is stated in a monthly bulletin issued by the treasury department. Although statistics are usually classed as dull reading, here are some that are eloquent with their story of American growth and prosperity. The official figures show that the United States stands in the fiscal year 1901 clearly and unquestionably at the head of the world's list of exporting nations. Her average monthly exports for the nine months ending with March, 1901, were \$124,497,853, while those of the United Kingdom, her closest competitor, were \$117,816,246 per month during the same period. Those of Germany, the next largest exporter, were \$87,551,000 per month during the 12 months ending with December, 1900, and other nations as follows: France, \$56,467,000; Russia, \$29,550,000; British India, \$26,747,000; Austria Hungary, \$25,753,255; Belgium, \$23,568,000 and Italy, \$20,518,000.

The total domestic exports of the United States in the nine months ending with March are \$1,120,480,673, while the exportation of British and Irish produce in the same period is \$1,060,346,214, showing the exports of the United States to be \$60,000,000 greater than those of the United Kingdom, her greatest rival, during the term under consideration.

The United States, in the nine months ending with March, 1900, showed \$394,000,000 excess of exports over imports; in the same months of 1901 in excess of exports was \$521,000,000, a gain of \$127,000,000 in 1901 as compared with 1900.

Is this genuine prosperity or only the "apparent" prosperity, of which William J. Bryan prates? Let the facts be submitted to a candid world, and there will be no difficulty in deciding.

California has been in the habit for years for sending eastward exhibits of some of her products. Ohio is now taking her turn at sending an exhibit to California. It is composed of men. In the production of a first-class article in that line no section of the country can surpass the Buckeye state.

Prohibitionists in neighboring counties continue to hold "large and enthusiastic" conventions. We presume, as in the historic meeting reported by the late Hon. Hannibal Hamlin, the published accounts are true, one of those present being large and the other enthusiastic.

The Jacksonville, Fla., fire is the worst in the recent history of this country. Fortunately it comes at the beginning of the warm season, which fact, with the generous funds which will promptly be raised for the fire victims, will avert a great amount of suffering.

Manila has civil government at last. Better yet, it has no party which is "agin the government," and there is every cause for believing that Uncle Sam will soon have reason to become proud of the capital of his Oriental possessions.

With something like three score indictments returned by the Columbian county grand jury in liquor cases, there will be uneasiness in many a saloon until the proprietor learns "where he is at."

In showing honor to President McKinley the states which did not cast their electoral votes for him seem to vie with those which did.

The Democrats of Ohio have less use for Tom L. Johnson than for his barrel.

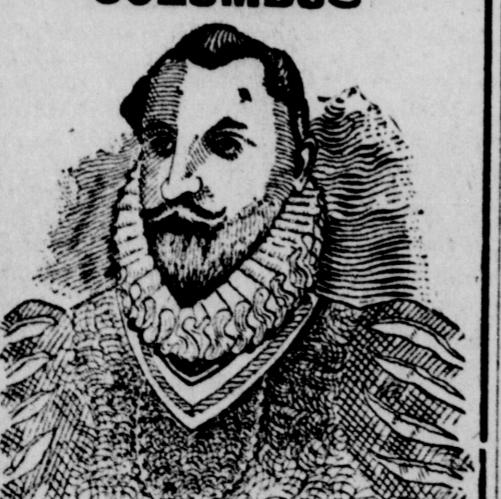

FAILED TO GET DIVORCE.

Samuel S. Loomer, of Toronto, Brought Suit in Wyoming Court.

Toronto, O., May 6.—Samuel S. Loomer, of this city, who has taken up residence in Cheyenne, Wyoming, for the purpose of securing a divorce from his wife, Lillian Doolan Loomer, has been refused a divorce by the courts of the county of which Cheyenne is the county seat.

A copy of the decree has been received by Erskine & Erskine, attorneys for the defendant. It states in substance, that the court finds that the allegations of the defendant's misconduct, as set forth by the petition, are not true, and that during January, 1901, and at divers times since, the plaintiff has been guilty of infidelity. Loomer tried to get a divorce in this county and failed.

ARRANGING FOR CIRCUS DAY.

Manager Pauley Providing for Safety of Bridge Patrons.

J. P. Pauley, who has charge of the East Liverpool bridge, is making preparations for the safety of the pedestrians who will cross the bridge on circus day, May 16. He has decided to place a gate on the West Virginia end of the bridge in charge of two men and not allow the people to rush on it in too great numbers. The office will change money only and will have six tolltakers. He will also allow no vehicles of any kind on the bridge from 12:30 to 2 o'clock and from 10 to 11:30 p. m., and intends to space all wagons and street cars about 75 feet apart.

RISE IN THE RIVER.

It Was a Slight One And Did Not Last Long.

The rivermen were all smiles yesterday when they noticed that the water in the Ohio had started to rise, but it did not last long, for after a rise of six inches it again commenced to fall, and the marks at the wharf this morning registered 8.2 feet. The Keystone State, Kanawha and Ben Hur passed up yesterday and the Keystone State and Ben Hur will be down tomorrow night.

THE SURPRISE CLOTHING HOUSE.

Life Aboard an Arctic Boat.

The days and weeks pass without our taking any account of them. We get up at 6:30 in the morning. At 7 we feed the dogs. At 8 we have breakfast, and at 12 we dine. Then we work till 6:30, when we have supper, after which we smoke and play cards or chess till bedtime. It is not at all cold.

Rarely does the thermometer descend below zero. Yesterday the sun shone gloriously. The ice reflected it with a blinding glare and in brilliant colors.

The ship has withstood all the assaults of the ice. It is splendid to see how it breaks up ice that is sometimes three or four feet thick. At other times, when it is even thicker, the ship is crushed against it at full steam.

The shock splits and breaks it very often for a distance of 40 or 50 yards. The Duke of Abruzzi is always on the bridge and loses no opportunity of getting ahead. Sometimes he does not even come down to his meals. Whenever we get the smallest opening, he orders us to go on, and we are glad of it, because the more we advance at the present time the less we shall have to do next year.—Leslie's Monthly.

Traps In French.

A frequent trap in French for the unwary is the difference of meaning in similar phrases. For example, "faire feu" means to fire a gun, while "faire du feu" means to light a fire; "tomber par terre" conveys the idea of falling to the ground from one's own height, whereas "tomber a terre" means to fall from any height—in other words, to tumble down and to tumble off. In the same way "trahir de fat" means to call a man a top and "trahir en roi" to treat him like a king. The English word "bore" may be expressed in two ways—"un raseur" gives the idea of an active bore and "une bassinoire" of a passive bore.—Academy.

Tobacco Under Shade.

A tobacco firm of Hartford has decided to put six acres of Sumatra tobacco under shade in the town of Suffield, Conn., this season, and an individual grower in Barkhamstead, Conn., will plant eight acres under the same conditions, says a New Haven dispatch to the New York Post. The two ventures together will involve an expenditure of from \$8,000 to \$10,000. In the Barkhamstead venture coarse cotton cloth will be used for shading instead of cheesecloth.

Quick Eaters.

"Have you any idea," remarked the cashier of one of the largest lunch restaurants in New York, "how many minutes the average downtown businessman devotes to his midday meal?"

"At a venture," answered the reporter, watching the hurried play of knives and forks about him, "I should say 15 minutes."

"You set about the time usually estimated," returned the cashier, "but in reality half that time would be nearer right. The average time consumed for lunch by the patrons of this establishment is just eight minutes. The fact is," continued the cashier after the reporter had ventured a foreboding for New York digestion, "people find it such a trifling and unobtrusive matter just to get a bite of lunch that few realize what a gigantic business it is merely to supply hungry people downtown at noon, because few bring their lunches with them, and from the formation of the city none can go home."

"This establishment feeds 3,000 people a day, and the amount of food required to care for that patronage is enormous. For example, when we put hash on the 'specials' enough is made up actually to fill a wagon. We are not the largest luncheon, however."

Most Unwholesome. "I think I'll have some of those crackers," said Jones at the lunch counter. "Don't you want some?"

TOUCH THE BUTTON

Task Allotted Mrs McKinley In Connection With Launching the Ohio.

PRESIDENT OBSERVED SUNDAY

Asked El Paso Citizens to Respect Day—He and Mrs. McKinley Attended Church—President Received Diaz's Representatives.

San Francisco, May 6.—The much-discussed question as to whom would fall the honor of launching the battleship Ohio has been settled by the announcement that the function will be performed by Mrs. McKinley. After the simple ceremonies preceding the event, consisting of short addresses by President McKinley, Governor Nash and Irving M. Scott, Mrs. McKinley will press the button and the released ax will sever the rope just at the turn of the tide at 12:26 p.m. Just as Mrs. McKinley touches the button, Miss Helen Deshler, of Columbus, will break the bottle of California wine over the bow and give the new fighting machine the name of Ohio.

To Leave To Meet Presidential Party.

Governor Gage and his reception committee, accompanied by United States Senator Bard, and the seven congressmen from California, will leave tonight for Redlands, Cal., where the presidential train will be met Wednesday morning.

General James M. Gleaves, president of the Ohio society, and William H. Jordan, vice president, left last night over the Santa Fe for Needles, where they will meet Governor Nash and his party and welcome them.

El Paso, Texas, May 6.—The presidential party reached El Paso, the gateway of Mexico, about 9 o'clock Sunday morning, and were to remain here until about noon today. President Diaz, of Mexico, had hoped to meet the president here and shake hands across the border, but as the Mexican congress is in session, he could not leave the capital. He sent a personal message to the president, however, and also dispatched General Juan Hernandez, the commander of the second military zone of the state of Chihuahua, personally to present his good wishes to the chief magistrate of the United States.

Mexican Officials Called.

Governor Miguel Ahumada, of Chihuahua, the most northerly state of Mexico, also traveled to El Paso to pay his respects, and these distinguished Mexican officials, accompanied by General Hernandez's staff in full uniform, were received by the president in his car at the station. After exchanging felicitations, the president requested General Hernandez to convey to President Diaz his personal good wishes for the health and happiness of President Diaz and for a continuation of the cordial relations at present existing between the two countries. President Diaz's message was as follows:

"City of Mexico, Mexico,

"May 5, 1901.

"To the President of the United States of America, El Paso:

"When you arrived this day at the frontier of Mexico I wished that I might shake hands with you; but I send you as cordial a salute as corresponds with the cordial relations which exist between the two Republics of North America. I also send General Hernandez to express to you the same feeling.

Signed) "Porfirio Diaz."

To this the president sent the following response:

President's Reply to Diaz.

"El Paso, Texas, May 5, 1901.

"To His Excellency, General Porfirio Diaz, President of the Republic of Mexico, City of Mexico:

"It gives me great pleasure to reciprocate the courteous greeting of your excellency and to express my most cordial good wishes for your health and happiness and for the continued prosperity of the Mexican republic, to which we are bound by so many ties of mutual interest and friendship.

(Signed) "William McKinley."

It being Sunday, the president had requested the local committee here not to arrange any programs for the day. His wishes were respected and the military parade and mimic exercises were postponed until today. The president and Mrs. McKinley and the members of the cabinet attended the Station Street Methodist church in the morning and in the afternoon some of the party went for a drive.

After dark last night the Mexican band, which had been brought from the City of Mexico by General Hernandez, serenaded the president and Mrs. McKinley at the train. No horns nor drums were used, and the soft, languorous Spanish airs strummed on guitars and mandolins in the cool of the evening, were thoroughly enjoyed.

While it was a comparatively quiet day in El Paso, notwithstanding the large number of strangers in town, it was otherwise in the Mexican city of Juarez, just across the Rio Grande. May 5 was the anniversary of the defeat of the French invaders at Puebla, and was celebrated as our Fourth of July in the United States.

A Brutal Bull Fight.

The great feature of the celebrations was the Spanish bull fight. A famous matador had come to Juarez from the City of Mexico for the oc-

casion. None of the members of the president's immediate party attended, but bull fighting is the national sport in Mexico, as of Spain, and General Hernandez and the governor of Chihuahua occupied a box overlooking the ring. The fight proved to be more than usually bloody and brutal. The net casualties were four bulls dispatched, one horse killed, two picadors unhorsed and one torero severely but not fatally wounded, as he was helped over the fence surrounding the arena by a maddened bull.

Governor Murphy, of Arizona, and his staff were to participate in the formal greetings today. One of the features of the program today was to be a Mexican breakfast, with the typical Spanish dishes, for the ladies of the party.

A QUIET SUNDAY.

Saloons In Kansas City Were Shut Tight.

Kansas City, Mo., May 6.—Saloons in Kansas City were closed tight Sunday, the first time in about six years. But one arrest for failure to respect Mayor Reed's order was made, and one of the quietest days for a long time was the result. Saloonkeepers spent an active day, however, circulating petitions to the mayor and police commissioners, giving their side of the question and requesting a resumption of the old regime. A mass meeting under the auspices of the Law Enforcement league, attended by 500 men, was held, and strong resolutions commanding the mayor and police commissioners for their action were adopted. It was determined to keep up the agitation for Sunday closing and a committee was appointed to secure evidence against saloonkeepers who may fail to observe the law.

LIPTON ENTHUSIASTIC.

Said He Thought It Possible He Would Win the Cup.

Southampton, May 6.—None of Sir Thomas Lipton's party came ashore here after the return of the Shamrock II from the Spins. Sir Thomas, it is asserted, is more enthusiastic than ever.

"I consider it demonstrated beyond question," he said to a representative of the Associated Press, "that the new challenger will make the finest fight ever made in a contest for the American cup. I do not know what America has to array against us, but I am convinced that the Americans will be well pleased to see a good race and will bear me no ill will if, as I now think it possible, I should win the cup."

OVER TWENTY ENGAGEMENTS

Fought by North Manchurian Division of Russian Army.

St. Petersburg, May 6.—The Russky Invalid published details of the recent operations in Manchuria. It appears that the North Manchurian division, under General Zerpitski, fought over 20 engagements, losing altogether 24 men killed and 7 officers and 61 men wounded, two officers having died of their wounds. A quantity of guns and rifles were captured.

The total results of the operations is that of three bands, which at the beginning of the year were menacing the peace of Manchuria, two have been annihilated, according to the Russky Invalid, and the third, after sustaining a number of defeats, is now being pursued by the Russian division.

CHAFFEE PRAISED TROOPS.

American Cavalry and Artillery Left Pekin.

Pekin, May 6.—The United States cavalry and artillery left Pekin to march to Ton Ku. Imposing farewell ceremonies attended their departure. Sir Alfred Gaselee and the other British generals, with their staffs, were present, and the British commander sent a detachment of Baluchis, who escorted the Americans outside the city wall.

General Chaffee publicly thanked the cavalry and artillery for their services in the international relief expedition and for their behavior since, which has been, he said, a credit to themselves and their nation.

The infantry and headquarters' staff will leave by rail as soon as the transports arrive at Taku.

TOUCH THE BUTTON

Task Allotted Mrs McKinley In Connection With Launching the Ohio.

PRESIDENT OBSERVED SUNDAY

Asked El Paso Citizens to Respect Day—He and Mrs. McKinley Attended Church—President Received Diaz's Representatives.

San Francisco, May 6.—The much-discussed question as to whom would fall the honor of launching the battleship Ohio has been settled by the announcement that the function will be performed by Mrs. McKinley. After the simple ceremonies preceding the event, consisting of short addresses by President McKinley, Governor Nash and Irving M. Scott, Mrs. McKinley will press the button and the released ax will sever the rope just at the turn of the tide at 12:25 p.m. Just as Mrs. McKinley touches the button, Miss Helen Deshier, of Columbus, will break the bottle of California wine over the bow and give the new fighting machine the name of Ohio.

To Leave To Meet Presidential Party.

Governor Gage and his reception committee, accompanied by United States Senator Bard, and the seven congressmen from California, will leave tonight for Redlands, Cal., where the presidential train will be met Wednesday morning.

General James M. Gleaves, president of the Ohio society, and William H. Jordan, vice president, left last night over the Santa Fe for Needles, where they will meet Governor Nash and his party and welcome them.

El Paso, Texas, May 6.—The presidential party reached El Paso, the gateway of Mexico, about 9 o'clock Sunday morning, and were to remain here until about noon today. President Diaz, of Mexico, had hoped to meet the president here and shake hands across the border, but as the Mexican congress is in session, he could not leave the capital. He sent a personal message to the president, however, and also dispatched General Juan Hernandez, the commander of the second military zone of the state of Chihuahua, personally to present his good wishes to the chief magistrate of the United States.

Mexican Officials Called.

Governor Miguel Ahumada, of Chihuahua, the most northerly state of Mexico, also traveled to El Paso to pay his respects, and these distinguished Mexican officials, accompanied by General Hernandez's staff in full uniform, were received by the president in his car at the station. After exchanging felicitations, the president requested General Hernandez to convey to President Diaz his personal good wishes for the health and happiness of President Diaz and for a continuation of the cordial relations at present existing between the two countries. President Diaz's message was as follows:

"City of Mexico, Mexico,

"May 5, 1901.

"To the President of the United States of America, El Paso:

"When you arrived this day at the frontier of Mexico I wished that I might shake hands with you; but I send you as cordial a salute as corresponds with the cordial relations which exist between the two Republics of North America. I also send General Hernandez to express to you the same feeling."

Signed) "Porfirio Diaz."

To this the president sent the following response:

President's Reply to Diaz.

"El Paso, Texas, May 5, 1901.

"To His Excellency, General Porfirio Diaz, President of the Republic of Mexico, City of Mexico:

"It gives me great pleasure to reciprocate the courteous greeting of your excellency and to express my most cordial good wishes for your health and happiness and for the continued prosperity of the Mexican republic, to which we are bound by so many ties of mutual interest and friendship.

(Signed) "William McKinley."

It being Sunday, the president had requested the local committee here not to arrange any program for the day. His wishes were respected and the military parade and official exercises were postponed until today. The president and Mrs. McKinley and the members of the cabinet attended the Station Street Methodist church in the morning and in the afternoon some of the party went for a drive.

After dark last night the Mexican band, which had been brought from the City of Mexico by General Hernandez, serenaded the president and Mrs. McKinley at the train. No horns nor drums were used, and the soft, tangorous Spanish airs strummed on guitars and mandolins in the cool of the evening, were thoroughly enjoyed. While it was a comparatively quiet day in El Paso, notwithstanding the large number of strangers in town, it was otherwise in the Mexican city of Juarez, just across the Rio Grande. May 5 was the anniversary of the defeat of the French invaders at Puebla, and was celebrated as our Fourth of July in the United States.

A Brutal Bull Fight.

The great feature of the celebrations was the Spanish bull fight. A famous matador had come to Juarez from the City of Mexico for the oc-

casion. None of the members of the president's immediate party attended, but bull fighting is the national sport in Mexico, as of Spain, and General Hernandez and the governor of Chihuahua occupied a box overlooking the ring. The fight proved to be more than usually bloody and brutal. The net casualties were four bulls dispatched, one horse killed, two picadors unhorsed and one toroader severely but not fatally wounded, as he was helped over the fence surrounding the arena by a maddened bull.

Governor Murphy, of Arizona, and his staff were to participate in the formal greetings today. One of the features of the program today was to be a Mexican breakfast, with the typical Spanish dishes, for the ladies of the party.

A QUIET SUNDAY.

Saloons In Kansas City Were Shut Tight.

Kansas City, Mo., May 6.—Saloons in Kansas City were closed tight Sunday, the first time in about six years. But one arrest for failure to respect Mayor Reed's order was made, and one of the quietest days for a long time was the result. Saloonkeepers spent an active day, however, circulating petitions to the mayor and police commissioners, giving their side of the question and requesting a resumption of the old regime. A mass meeting under the auspices of the Law Enforcement league, attended by 500 men, was held, and strong resolutions commanding the mayor and police commissioners for their action were adopted. It was determined to keep up the agitation for Sunday closing and a committee was appointed to secure evidence against saloonkeepers who may fail to observe the law.

RELIEF FOR HUNGRY

Trains and Boats of Provisions
Pour Into Fire-Swept
Jacksonville.

10,000 HOMELESS PEOPLE FED

Times-Union and Citizen Were to Estimate This Morning the Total Property Loss at About \$11,000,000. Martial Law Rigidly Enforced.

Jacksonville, Fla., May 6.—The hunger of 10,000 homeless people was satisfied upon the arrival of relief trains and boats bringing provisions from neighboring towns. A commissary was established in the center of the city and thousands were fed.

The relief fund is growing hourly and every mail brings offers of assistance.

An order was promulgated under martial law requiring all merchants whose stores were spared by the conflagration to open their doors and sell to all who asked.

The streets were crowded Sunday with shoppers who lost all in the fire and many stores were to remain open all night.

Number of Refugees Were Large.

It was estimated that 3,000 persons had left the city and every outgoing train was crowded with refugees. Five carloads of tents were received, the property of the state, which are to be used by the homeless temporarily. Another shipment of tents is expected from the government to arrive today.

This morning the Times-Union and Citizen were to estimate the total property loss at \$11,000,000.

These figures are based upon an itemized statement furnished by a volunteer committee of citizens.

There were rumors of loss of life last night and the river had been closely watched during the day. Many persons have confirmed the report of loss of life at the Market street wharf. Numerous advertisements appeared in the local papers asking for aid in searching for persons who are missing.

As many had left the city for the gulf, it is impossible to ascertain who had been lost in the Market street pier tragedy.

A committee of Atlantaens was here to deliver \$1,000 worth of provisions, promising another car during the week. Atlanta also furnished by express 1,000 feet of hose.

Martial law was being rigidly enforced and the town was quiet last night, although much anxiety prevailed because of the threats said to have been made by the negroes that they would obtain provisions by force at their first opportunity.

In the eastern portion of the city the debris was still burning, but no further outbreak of the flames is anticipated.

Mayor Said Help Was Needed.

New York, May 6.—The Jacksonville emergency committee of the Merchants' association, of this city, organized to send relief to Jacksonville, Fla., received the following telegram:

"Tallahassee, Fla., May 5.—Food supplies needed as the temporary relief. Jacksonville association will issue call, which will be furnished you, giving class of supplies needed. The people of Florida appreciate your noble work; in their name I thank you."

"Jacksonville, Fla., May 5.—One hundred and thirty-six blocks, covering best residential and business portion of city, destroyed; about 10,000 people homeless and thousands destitute. Our people responding liberally, but demands for help beyond our ability to meet."

"J. E. T. Bowden, Mayor."

To Mayer Bowden a telegram in reply was sent, telling him that the citizens of New York would respond nobly to his appeal for that which is necessary in the way of food, clothing, etc., household utilities, drugs, etc., as soon as they knew just what was needed, and that the emergency committee would meet today, together with the old Galveston relief committee, to take immediate action upon receipt of intelligent information.

Telegram From the President.

Tallahassee, Fla., May 6.—Governor Jennings received the following telegram:

"El Paso, Tex., May 5, 1901.

"The Governor of Florida, Tallahassee, Fla.:

"I have just learned of the calamitous fire that has swept over the city of Jacksonville, and hasten to express the deep sympathy, in common with our country, I feel for those who have suffered. The government will do all it can in the work of relief."

"William McKinley."

Governor Jennings acknowledged the receipt of the president's message of sympathy in the following telegram:

"Tallahassee, Fla., May 5, 1901.

"To Hon. William H. McKinley, El Paso, Tex.:

"We appreciate your sympathy for the suffering of our people caused by the Jacksonville conflagration, which is appalling, and thank you for the aid of the government so generously tendered. Estimated that over 10,000 are homeless and that loss will reach \$15,000,000. No lives lost so far as we know. Sufficient funds have been placed at disposal of relief association to provide for immediate neces-

sities. Perfect order prevails. I beg to extend the gratitude of the people of Florida to you."

"W. S. Jennings, Governor."

CONGER WAS LENIENT.

LESS BLOODTHIRSTY THAN THE OTHER MINISTERS.

Denied That Missionaries Looted. China Did All She Could as to Punishments.

New York, May 6.—Minister E. H. Conger, who has lately returned to this country, furnished an article on the Chinese situation, which will appear in the coming number of Leslie's Weekly. Mr. Conger said in part:

"Unless matters have changed very materially since I left China six weeks ago, the powers will reach some conciliation in regard to China very soon. Of course, it is difficult for 11 men to agree on anything, especially when they have 11 governments with different views behind them. China is perfectly willing to do anything that the powers agree upon—that is, anything within her ability to accomplish. She is only too anxious to expedite these matters and settle down to peaceful pursuits again. Of course, the powers must not demand an indemnity which China will be physically unable to raise."

"It is not certain that, finally, some nation may not demand territory of China in lieu of a money indemnity. It is perfectly certain that if any nation does make this demand, the partition of China will follow, and this will inevitably cause much dissension between the powers. These difficulties and disputes would be long in the settling, and would lead to terrible confusion in China."

"Russia has so far mitigated her demands that there is not now much danger of serious difficulty between her and Japan. Personally, I am very much in favor of the continued existence of China as an empire, governed by her own emperor. It will save us and all the rest of the world lots of trouble if the integrity of the empire is maintained."

"As far as the punishment of Chinese officials goes, China has already done all that she could. Something out of the ordinary had to be demanded by the powers, for it takes a good deal of punishment to impress this people, and this was no ordinary offense. In some cases the officials whose punishment was demanded were more powerful than the government, and then, of course, the punishment could not be enforced. Except in these cases, everything was done as the powers demanded."

"At home I understand that I was thought bloodthirsty, but in China I was the most lenient of all the ministers, except one. We know the conditions there better than those who were not there could possibly know them. Draastic measures were demanded, but I do not think that we were cruel. What would seem a severe punishment to us at home, would not impress the Chinese at all, for the reason that they indulge in so many cruel and unusual punishments. The reports of cruelty on the part of soldiers have been grossly exaggerated, though I am sure that there was plenty of brutality on the part of individual soldiers. As an army, the allies were exceedingly well behaved. Nor were the stories of unrestricted looting true. In Pekin the soldiers took what they needed, of course, just as we would have seized anything that we needed while we were caged up in the Compound, had we been able to fasten upon anything that would help us to withstand the siege. As for the stories of missionary looting, they are undisguisedly false. The missionaries did not loot."

CUBANS REACHED HAVANA.

Conference With Other Delegates Likely Tomorrow.

Havana, May 6.—The special commission of the Cuban constitutional convention, who went to Washington to obtain a better knowledge of the intentions of the United States government regarding Cuba, arrived here. They were met by a delegation of Cubans and by Colonel Scott, representing the military governor.

Senor Llorente said that the commission had held several conferences on the Havana during the trip and that an understanding had been reached. He explained, however, that it would be necessary to hold another meeting today, when the report of the committee would be drawn up and a call issued for a conference with the other delegates Tuesday.

Favors Our Indemnity Proposals.

St. Petersburg, May 6.—The Novo Vremya expressed regret that the powers have not accepted the proposals of the United States on the subject of Chinese indemnities.

RELIEF FOR HUNGRY

Trains and Boats of Provisions Pour Into Fire-Swept Jacksonville.

10,000 HOMELESS PEOPLE FED

Times-Union and Citizen Were to Estimate This Morning the Total Property Loss at About \$11,000,000. Martial Law Rigidly Enforced.

Jacksonville, Fla., May 6.—The hunger of 10,000 homeless people was satisfied upon the arrival of relief trains and boats bringing provisions from neighboring towns. A commissary was established in the center of the city and thousands were fed.

The relief fund is growing hourly and every mail brings offers of assistance.

An order was promulgated under martial law requiring all merchants whose stores were spared by the conflagration to open their doors and sell to all who asked.

The streets were crowded Sunday with shoppers who lost all in the fire and many stores were to remain open all night.

Number of Refugees Were Large.

It was estimated that 3,000 persons had left the city and every outgoing train was crowded with refugees. Five carloads of tents were received, the property of the state, which are to be used by the homeless temporarily. Another shipment of tents is expected from the government to arrive today.

This morning the Times-Union and Citizen were to estimate the total property loss at \$11,000,000.

These figures are based upon an itemized statement furnished by a volunteer committee of citizens.

There were rumors of loss of life last night and the river had been closely watched during the day. Many persons have confirmed the report of loss of life at the Market street wharf. Numerous advertisements appeared in the local papers asking for aid in searching for persons who are missing.

As many had left the city for the gulf, it is impossible to ascertain who had been lost in the Market street pier tragedy.

A committee of Atlantaens was here to deliver \$1,000 worth of provisions, promising another car during the week. Atlanta also furnished by express 1,000 feet of hose.

Martial law was being rigidly enforced and the town was quiet last night, although much anxiety prevailed because of the threats said to have been made by the negroes that they would obtain provisions by force at their first opportunity.

In the eastern portion of the city the debris was still burning, but no further outbreak of the flames is anticipated.

Mayor Said Help Was Needed.

New York, May 6.—The Jacksonville emergency committee of the Merchants' association, of this city, organized to send relief to Jacksonville, Fla., received the following telegrams:

"Tallahassee, Fla., May 5.—Food supplies needed as the temporary relief. Jacksonville association will issue call, which will be furnished you, giving class of supplies needed. The people of Florida appreciate your noble work; in their name I thank you."

"Jacksonville, Fla., May 5.—One hundred and thirty-six blocks, covering best residential and business portion of city, destroyed; about 10,000 people homeless and thousands destitute. Our people responding liberally, but demands for help beyond our ability to meet."

"J. E. T. Bowden, Mayor."

To Mayor Bowden a telegram in reply was sent, telling him that the citizens of New York would respond nobly to his appeal for that which is necessary in the way of food, clothing, cots, household utilities, drugs, etc., as soon as they knew just what was needed, and that the emergency committee would meet today, together with the old Galveston relief committee, to take immediate action upon receipt of intelligent information.

Telegram From the President.

Tallahassee, Fla., May 6.—Governor Jennings received the following telegram:

"El Paso, Tex., May 5, 1901. The Governor of Florida, Tallahassee, Fla."

"I have just learned of the calamitous fire that has swept over the city of Jacksonville, and hasten to express the deep sympathy, in common with our country, I feel for those who have suffered. The government will do all it can in the work of relief."

"William McKinley."

Governor Jennings acknowledged the receipt of the president's message of sympathy in the following telegram:

"Tallahassee, Fla., May 5, 1901. To Hon. William H. McKinley, El Paso, Tex."

"We appreciate your sympathy for the suffering of our people caused by the Jacksonville conflagration, which is appalling, and thank you for the aid of the government so generously tendered. Estimated that over 10,000 are homeless and that loss will reach \$15,000,000. No lives lost so far as known. Sufficient funds have been placed at disposal of relief association to provide for immediate neces-

sities. Perfect order prevails. I beg to extend the gratitude of the people of Florida to you."

"W. S. Jennings, Governor."

CONGER WAS LENIENT.

LESS BLOODTHIRSTY THAN THE OTHER MINISTERS.

Denied That Missionaries Looted. China Did All She Could as to Punishments.

New York, May 6.—Minister E. H. Conger, who has lately returned to this country, furnished an article on the Chinese situation, which will appear in the coming number of Leslie's Weekly. Mr. Conger said in part:

"Unless matters have changed very materially since I left China six weeks ago, the powers will reach some conciliation in regard to China very soon. Of course, it is difficult for 11 men to agree on anything, especially when they have 11 governments with different views behind them. China is perfectly willing to do anything that the powers agree upon—that is, anything within her ability to accomplish. She is only too anxious to expedite these matters and settle down to peaceful pursuits again. Of course, the powers must not demand an indemnity which China will be physically unable to raise."

"It is not certain that, finally, some nation may not demand territory of China in lieu of a money indemnity. It is perfectly certain that if any nation does make this demand, the partition of China will follow, and this will inevitably cause much dissension between the powers. These difficulties and disputes would be long in the settling, and would lead to terrible confusion in China."

"Russia has so far mitigated her demands that there is not now much danger of serious difficulty between her and Japan. Personally, I am very much in favor of the continued existence of China as an empire, governed by her own emperor. It will save us all the rest of the world lots of trouble if the integrity of the empire is maintained."

"As far as the punishment of Chinese officials goes, China has already done all that she could. Something out of the ordinary had to be demanded by the powers, for it takes a good deal of punishment to impress this people, and this was no ordinary offense. In some cases the officials whose punishment was demanded were more powerful than the government, and then, of course, the punishment could not be enforced. Except in these cases, everything was done as the powers demanded."

"At home I understand that I was thought bloodthirsty, but in China I was the most lenient of all the ministers, except one. We know the conditions there better than those who were not there could possibly know them. Draastic measures were demanded, but I do not think that we were cruel. What would seem a severe punishment to us at home, would not impress the Chinese at all, for the reason that they indulge in so many cruel and unusual punishments. The reports of cruelty on the part of soldiers have been grossly exaggerated, though I am sure that there was plenty of brutality on the part of individual soldiers. As an army, the allies were exceedingly well behaved. Nor were the stories of unrestricted looting true. In Pekin the soldiers took what they needed, of course, just as we would have seized anything that we needed while we were caged up in the Compound, had we been able to fasten upon anything that would help us to withstand the siege. As for the stories of missionary looting, they are undisguisedly false. The missionaries did not loot."

CUBANS REACHED HAVANNA.

Conference With Other Delegates Likely Tomorrow.

Havana, May 6.—The special commission of the Cuban constitutional convention, who went to Washington to obtain a better knowledge of the intentions of the United States government regarding Cuba, arrived here. They were met by a delegation of Cubans and by Colonel Scott, representing the military governor.

Senior Llorente said that the commission had held several conferences on the Havana during the trip and that an understanding had been reached. He explained, however, that it would be necessary to hold another meeting today, when the report of the committee would be drawn up and a call issued for a conference with the other delegates Tuesday.

Favors Our Indemnity Proposals.

St. Petersburg, May 6.—The Novoey Vremya expressed regret that the powers have not accepted the proposals of the United States on the subject of Chinese indemnities.

The news of the pope's will first took shape in a diplomatic note from the Bavarian minister to his government. Its theory is simple—that the papal power being absolute, involves the right of naming a successor.

London, May 6.—The pope, according to a dispatch to The Times from Rome, is understood to have made a will designating his successor, thus modifying the habitual mode of choosing a pope by a conclave.

The news of the pope's will first took shape in a diplomatic note from the Bavarian minister to his government. Its theory is simple—that the papal power being absolute, involves the right of naming a successor.

ALL STILL IDLE

NO CHANGE IN PLUMBERS' STRIKE SITUATION.

Committees on the Lookout to Prevent Men Coming in To Take Their Places.

There have been no new developments in the plumbers' strike since the two firms signed the scale on Saturday, although both sides have lined up for a long fight.

Committees have been appointed by the union to look after the various matters connected with the strike, and they give out statement that they are determined to stand out for the original demands. A committee visits the passenger station upon the arrival of every train to prevent anyone getting in without understanding the situation. A like committee looks after the river traffic.

No attempt has yet been made to import men, although it will be necessary to make a move of this character very soon unless the bosses make terms.

Affairs of the trade are a little slow just at present owing to the point not having been reached in the erection of new structures where the plumbers' work is necessary, but within the next two weeks the work will be in readiness and men will be in demand.

Strike headquarters have been established in the Smith Fowler building, and the members are required to register there once each day in order to secure their benefits. The organization has a substantial defense fund and are also receiving aid and support from their national headquarters.

LOCAL SALOONISTS

Said to Be Among Those Who Were Indicted By the Grand Jury.

Deputy Sheriff Howard Noragon was in the city yesterday and it was reported that he had in his possession eight summons which were to be served upon violators of the liquor laws, against whom the grand jury found indictments.

At least two local saloonists have two counts each against them, and it is said they will come up in common pleas court this week.

Rather Outspoken.

"When a man in the west likes not another," said a British Columbia man, "he is in no way disposed to hide that fact under a bushel basket or to conceal it from either the gentleman disliked in particular or the rest of the community in general."

"I remember an example of this trait that came under my notice some years ago in Idaho. A certain old fellow named Haas ran a paper there, and he and Judge Buck, the judge who rendered the celebrated decision in the famous 'Poor Man' Tiger litigation, were sworn enemies. Another old timer named Cheney disliked Haas and Buck and had it in for them both."

"One night at Wallace a dinner was given, at which Buck, Haas and Cheney were present, and at a late stage in the proceedings Cheney was called upon for a speech. I don't remember the topic he chose or how he brought it in, but when he got through Cheney left in the minds of his hearers no manner of doubt as to how he felt toward the other two."

"Gentlemen," said Cheney as he hung unsteadily to the end of the table, for the wine had been passing freely, "old man Haas says Judge Buck is a perfumer and a blackmailer, and Judge Buck says old man Haas is a horse thief and a liar. As both the gentlemen are extremely well acquainted with each other and should know whereof they speak, I do not feel called upon to dispute either statement."

"And then he sat down amid tumultuous applause."—New York Tribune.

Walderssee May Return Home.

Berlin, May 6.—"In view of the favorable development of events here," says the Pekin correspondent of The Lokal Anzeiger, "it is possible that Count Von Walderssee will return home about the middle of June."

Some Odd Mistakes.

An urban chemist advertised in his shop window: "Artificial eyes. Open all night." Away down south in front of the postoffice in an inland town may have been seen this legend, "Post here letters too late for the next mail." In a picture of the departure of the pilgrims from Delftshaven the artist placed a large steamer in the distance leaving the harbor under full steam.

ALL STILL IDLE

NO CHANGE IN PLUMBERS' STRIKE SITUATION.

Committees on the Lookout to Prevent Men Coming in To Take Their Places.

There have been no new developments in the plumbers' strike since the four firms signed the scale on Saturday, although both sides have lined up for a long fight.

Committees have been appointed by the union to look after the various matters connected with the strike, and they give out statement that they are determined to stand out for the original demands. A committee visits the passenger station upon the arrival of every train to prevent anyone getting in without understanding the situation. A like committee looks after the river traffic.

No attempt has yet been made to import men, although it will be necessary to make a move of this character very soon unless the bosses make terms.

Affairs of the trade are a little slow just at present owing to the point not having been reached in the erection of new structures where the plumbers' work is necessary, but within the next two weeks the work will be in readiness and men will be in demand.

Strike headquarters have been established in the Smith Fowler building, and the members are required to register there once each day in order to secure their benefits. The organization has a substantial defense fund and are also receiving aid and support from their national headquarters.

She was also badly bruised about the face and body. No blame can be attached to the driver.

LOCAL SALOONISTS

Said to Be Among Those Who Were Indicted By the Grand Jury.

Deputy Sheriff Howard Noragon was in the city yesterday and it was reported that he had in his possession eight summons which were to be served upon violators of the liquor laws, against whom the grand jury found indictments.

At least two local saloonists have two counts each against them, and it is said they will come up in common pleas court this week.

Rather Outspoken.

"When a man in the west likes not another," said a British Columbia man, "he is in no way disposed to hide that fact under a bushel basket or to conceal it from either the gentleman disliked in particular or the rest of the community in general."

"I remember an example of this trait that came under my notice some years ago in Idaho. A certain old fellow named Haas ran a paper there, and he and Judge Buck, the judge who rendered the celebrated decision in the famous 'Poor Man' Tiger litigation, were sworn enemies. Another old timer named Cheney disliked Haas and Buck and had it in for them both."

"One night at Wallace a dinner was given, at which Buck, Haas and Cheney were present, and at a late stage in the proceedings Cheney was called upon for a speech. I don't remember the topic he chose or how he brought it in, but when he got through Cheney left in the minds of his hearers no manner of doubt as to how he felt toward the other two."

"Gentlemen," said Cheney as he hung unsteadily to the end of the table, for the wine had been passing freely, "old man Haas says Judge Buck is a perjurer and a blackmailer, and Judge Buck says old man Haas is a horse thief and a liar. As both the gentlemen are extremely well acquainted with each other and should know whereof they speak, I do not feel called upon to dispute either statement."

"And then he sat down amid tumultuous applause."—New York Tribune.

EVENING NEWS REVIEW.

17TH YEAR. NO. 278.

EAST LIVERPOOL, O., MONDAY, MAY 5, 1901.

TWO CENTS

HAPPY RECONCILIATION AFTER LONG SEPARATION

Misunderstanding Between Husband and Wife, Due to Scandalous Tongues, Righted In This City.

JOYOUS MEETING IN CHIEF THOMPSON'S OFFICE

Richard Gray Left His Home In Parkersburg Last November—Wife Traced Him Here and Came on With Her Little Daughter, Confident That an Explanation Would Right Matters—She Was Not Disappointed.

A reconciliation occurred at police headquarters last evening in which a husband, who had been separated from his wife and child for more than six months, was restored to them, and Chief of Police Thompson was largely responsible for the success of the undertaking.

Dick Gray, with his wife and little daughter, Lillian, have lived in Parkersburg, W. Va., for many years. Mr. Gray had steady employment and the little family was a happy one until last November, when some meddlesome busybody began to make trouble. The husband's mind was poisoned against his wife, and he made the mistake that far too often occurs of accepting the statements of scandal mongers without taking the trouble to investigate the truth.

He left his home late in November and his injured wife and daughter were left almost destitute for days. Finally Mrs. Gray secured information which led her to believe that her husband was in East Liverpool, and on December 5 Chief Thompson received a letter from the lady requesting him to locate the missing man. The police department were not long in securing the desired information, and the deserted wife was made acquainted with the facts.

From time to time since then the

chief of police has received communications from Mrs. Gray, which, from their tone and feeling, left no doubt in his mind that there was a misunderstanding between the two that should be made clear.

The wife became weary of waiting and last week sold everything they owned, having determined to come to East Liverpool and make an explanation in person.

She arrived here at 6 o'clock last evening and went direct to police headquarters, determined to lose no time in seeking out her husband.

The police were all instructed to keep a lookout for him as they went out on their beats, but this was not necessary, as the object of their search passed along Third street and was seen by Mrs. Gray.

Chief Thompson called him and the scene that followed was pathetic and extremely touching. In a very few minutes the couple had exchanged confidences and made explanations which should have been forthcoming many weeks ago.

When the little family emerged from the city building every face was beaming and each countenance wore a smile it had not known since their troubles began. Chief Thompson smiled, too.

Gray has a position at one of the potteries and the family will remain here.

LASTS UNTIL 1902.

POTTERS' AGREEMENT TERMINATES A YEAR FROM JULY 1.

No Interruption in Work Will Result from Disputes During That Time.

President Hughes, of the Brotherhood, has not yet given out the committees who will act with the manufacturers in the settlement of three clauses in the list recently considered by the conference committees.

It is expected that the announcement will be made tomorrow, and the work will be commenced at once, as it is the desire of both sides to have the questions adjusted as soon as possible.

When the committees make their report on the matters in their hands, both the manufacturers and men may return to their several vocations with the positive assurance that there will be no interruption to work from disputes, as the agreement entered into, and which has been signed by both parties, will be in force until July 1, 1902. This was settled before the conference ended, and is a source of much satisfaction to the workers.

MANY OFFENDERS PAY THE PENALTY

Mayor Davidson's Court Was a Busy Spot Yesterday Morning.

MORE CHARGES OF VAGRANCY

Maggie Malone Was Disorderly Saturday Night, But Friends Secured Her Release on Sunday Evening. "Red" Moore in Trouble.

After three days in which there was not a single arrest made by the police, affairs at headquarters took on their usual activity on Saturday night.

Maggie Malone resides in Mulberry alley, and Saturday night rushed a few "growlers" down to the house. The stuff went to her head and she became disorderly. Chief Thompson and Officer Mahoney arrested her and she spent the night in jail. Mayor Davidson gave the prisoner a hearing Sunday morning and she was fined \$6.60. Her friends secured her release Sunday evening.

When Charles Chapin got his pay Saturday night he at once proceeded to blow it in for booze. He wound up in the West End on the steps of Streets' residence on Fairview street.

The patrol was called and Charley was taken to the station house by Fireman Woods. His honor assessed a fine of \$5.60 Sunday morning, which he was unable to pay and he lingered behind the bars until Sunday night when his employer stood good for his fine.

Officers Aufderheide and Davidson captured William Wherry, known among his friends as "Snake Eater Bill," on Second street Saturday night. Bill had gone the limit and was very quarrelsome. The charge against him was disorderly conduct, and the mayor attached a penalty of \$6.60, which Wherry will be required to pay before he regains his liberty.

"Red" Moore did not heed Mayor Davidson's warning a few days ago, when he was told to leave town, and Officer Mahoney run him in Saturday night on a vagrancy charge. He was arraigned on Sunday morning and pleaded not guilty. He says he proposes to stand pat.

Jack Daley had been out all night and when arrested by Officer Mahoney Sunday morning near the Thompson pottery, was in a beastly state of intoxication. He was placed in jail and allowed to sleep off the jag.

Sunday evening he asked for a hearing and it was discovered that he owed \$4.60 on an old fine. With the \$6.60 imposed upon this occasion he was indebted to the city in the sum of \$11.20. The mayor informed Jack he would have to square the whole bill before he was allowed to go, and he went back to jail.

Thom Kinney and Jack Housemiller were acting disorderly at the corner of Sixth and West Market street Sunday morning. Chief Thompson's attention was called to the matter and he promptly took them in. Mayor Davidson gave the pair a hearing last evening, and they were fined the minimum, \$6.60. They gave an order on Contractor Wallace for the amount and were released.

After arranging for the release of Maggie Malone Sunday night, her friends went to her home in Mulberry alley to pay her a visit. They were enjoying themselves about midnight when "Chip" Gamble got mad about the way he was treated and began to curse in a loud voice. Officers Davidson and Dawson arrested him and he put up \$10 for his appearance at 7 o'clock this evening.

Chief Thompson arrested Frank Gainley in the Diamond last evening on a charge of vagrancy. Gainley and his gang have been "panhandling" about the city for several days, and in some instances have frightened women until they were compelled to make complaint.

He pleaded not guilty when arraigned this morning and he and "Red" Moore will be given a hearing this evening.

THE SENATORSHIP

WILL BE SETTLED AT TOMORROW'S CONVENTION.

No Opposition to Senator Archer And C. C. Connell, Who Will be Nominated.

Tomorrow morning at 10 o'clock the senatorial convention of the Twenty-second joint district, including Columbiana, Jefferson, Belmont and Harrison counties, will convene at Steubenville.

The meeting will be devoid of exciting contests, as there will be no opposition to the selection of Senator Archer, of Belmont county.

Owing to the adjustment under the recent census, this district is entitled to an additional representative in the senate and Columbiana county has a candidate in the person of Attorney Charles C. Connell, of Lisbon, and he will be nominated.

Columbiana county, with its 103 delegates, will go solid for the Lisbon man, and to the present no candidates have announced from the other counties, so that the convention will simply go through the usual formalities, organizing and adopting the stereotyped resolutions endorsing the state and national administrations, name the two candidates mentioned and adjourn.

Liverpool township is entitled to 28 delegates and will have the full quota present.

MINERS' TO STRIKE

Those of Columbiana County District Vote to Go Out Tomorrow.

Salem, May 6.—The coal miners of the district composed of East Palestine, New Waterford and Negley, O., and Cannetton, Pa., at a meeting at East Palestine voted to go on strike Tuesday next. The miners demand pay for "dead work," which they have been doing gratuitously.

CLERKS BLOWN ABOUT BY A GAS EXPLOSION.

A terrific gas explosion occurred up. He also had his right hand slightly burned. The force of the explosion played havoc with the stove, it being blown into sections and the clerks upstairs did not escape.

William Leech was sitting on a stool and he was blown up on his desk, while John Maule, who was manipulating a typewriter, was thrown in the air a distance of three feet, alighting on a bill box and escaping with a shaking up. Oschman was thrown under a desk and Hill, who was working on a desk near the stairs, was blown down to the first floor. He escaped with slight bruises.

The office presented a very dirty appearance, the ceiling, wall and floors being covered with soot, and it took the entire force some time to clean it up. The building was not damaged.

THIS CITY GETS THE TURNFEST

The Great Annual Gathering Will Be Held In East Liverpool.

ARRANGEMENTS ALL COMPLETE

The Local Society Takes Action And Appoints Committees—The Event to Be a Great One With a Large Attendance.

At a meeting of the East Liverpool Turner society held in their hall yesterday afternoon, action was taken which will bring the annual turnfest for 1902 to this city.

It has been understood for several weeks that East Liverpool could get the meeting if it wanted it, but the society here was not disposed to take up the matter until they had made a thorough investigation of the situation and had ascertained what accommodations and other arrangements would be necessary for the entertainment of the immense crowd who attend these events.

They took considerable time in going over the ground and the action of yesterday was taken only after they had heard reports from the various committees that had been appointed to make inquiries and secure information.

An executive committee was appointed who will have entire charge of the affair and to whom all matters pertaining to the turnfest must be referred. The committee is composed of William Leibschner, Charles Berg, Henry Joseph, John B. Hoffman, Peter Reisberger, Max Canne.

The meeting will be an immense one, taking in all the societies in the principal cities of western Pennsylvania and eastern Ohio, and will attract a crowd equal to or larger than that which attended the Elks carnival here a few years ago.

The meeting will begin on Monday of the first week in July, and continue throughout the week.

LOST HIS TROUSERS.

A Wellsville Jiggerman Purchased New Garments And Forgot Where He Put Them.

A jiggerman employed at the Sevres China company was so unfortunate a few days ago to lose a pair of trousers and experienced a great deal of trouble and anxiety in getting them back. The gentleman resides in Wellsville, but purchased the trousers in this city. He boarded car No. 11 in the Diamond, and laying the package carefully away on the seat beside him, never thought of them again until he reached his home. The Wellsville man had been under the weather for several days, and was almost prostrated from the shock of his loss, it being the only change he had. The garment was finally traced to the power house, whence he procured it later.

HOT METAL IN HIS SHOE.

JESSE ORMES SPILLED LIQUID FIRE ON HIS FOOT.

The Result Was Painful Burns Which Will Lay Him up For a Time.

Jesse Ormes, who is employed at the Ormes machine shop, met with a very painful accident Saturday evening. He was handling a ladle filled with molten metal which he upset. A part of the liquid fire dropped inside the top of a clumsily fitting shoe which he was wearing, and before it could be removed his foot was very severely burned.

A doctor was called who dressed the wound in a solution which partly alleviated the pain. He is resting easy today, but will be unable to be at work for some time.

DIXONVILLE WON.

J. D. Wright, of Dixonville, purchased a phonograph a few days ago and now he offers it for sale. He has only had it a few days, and thinks it is fine, but he says the Dixonville youngsters visit him every evening and he is compelled to run the machine all night. He says it isn't right to spoil the quiet little suburb by turning it into a bedlam with phonographs and base ball games.

A CORRECTION

Of a False Impression That Has Been Created.

THE JOURNEYMAN'S SIDE

Of the Question in the Plumbers' Strike Set Forth in the Following Statement Which is Made by the Union.

The committee representing the journeymen plumbers' local Friday evening gave out the following statement regarding certain reports that have been circulated recently regarding the new scale that has been presented to the master plumbers, and which has not been signed by all the latter. The committee said:

It has been circulated that should any person having work that would take but an hour or two, the parties having the work done would have to pay for a full day and we, the journeymen plumbers, wish to correct this. All we ask is that if we start in the morning we be given a full day's work, which can always be found in every plumbing shop in this city. All that will be asked from parties having work done will be for the actual time it takes to go to and from the job and do the work and the material used. Anyone wishing information regarding the above will call at Strike Headquarters, in Fowler's hall, between 8 a. m. and 5 p. m.

We refer the public to those master plumbers who have signed the new scale regarding the truth of this statement, namely: Thomas F. Starkey Plumbing Co., A. C. Burrows, J. W. Jones, Reisinger Bros. and O. K. Cycle Co.

New York, May 6.—It is now understood among Catholics of Brooklyn that the purpose of the hurried departure of Monsignor John I. Barrett to Europe last week was to secure the rectorship of the American college at Rome. Mgr. Barrett is secretary to Bishop McDonnell. In the event of his obtaining the rectorship in the Holy City it is said that Rev. Father Mundel, the chancellor of the diocese, will become the bishop's secretary. Rev. Martin J. Hogan, who is now in Rome, will succeed Father Mundel.

RAID ON LAWMAKERS

Anthracite Miners Want Their Bills Passed by the Legislature.

MAY INVADE HARRISBURG

Depends on Whether a Committee of Pennsylvania Senate Intends to Hold Up Certain Labor Measures. Committee to See Snyder Today.

Shamokin, Pa., May 6.—A committee from the United Mine Workers' districts Nos. 1, 7 and 9, of the anthracite region, was expected to go to Harrisburg today to see Acting President Snyder, of the state senate. He was expected to inform them whether the senate committee intended holding up the labor bills or report them in the negative. In either event news will be sent to the coal region, whereupon the secretaries of the districts will notify the locals to hold mass meetings tonight in every town and village to prepare the men for mobilization preparatory to the invasion of Harrisburg.

Secretary Hartlein, of district No. 9, said that the men should be at the state capital by Wednesday night or Thursday. The men do not expect the authorities to interfere with them, despite a rumor that the militia would disperse them if the march started.

Hazleton, Pa., May 6.—It was estimated that the Hazleton region will furnish about 5,000 men on the march to Harrisburg if the leaders decide that such a move will be necessary to force through the legislature the bills endorsed by the United Mine Workers. Hazleton will be the point of mobilization for the Lehigh region.

From this city the men will march across the mountains to the Panther creek valley and thence to Pottsville, where they will join the Schuylkill forces. The foreigners are very enthusiastic and all are in readiness to move. Arrangements are being made to have drum corps and brass bands accompany the marchers. The matter of feeding the men on the march and on their arrival at the state capital has not yet been definitely settled.

GUERRILLA WARFARE.

Rebels in Colombia Were Carrying It On—Repulsed Attack of Government Troops.

Kingston, Jamaica, May 6.—Claude C. Mallet, the British consul at Panama, arrived here on the steamer Atrato on his way to England. Mr. Mallet was interviewed by the reporter of the Associated Press on conditions in Colombia and said that the revolution there had degenerated into guerrilla warfare, and that the strength of the rebels was not known. One week perhaps 5,000 men are in the field, while the next week there will be but 1,000, as the rebels are in the habit of returning to their homes in order to gather supplies, and the following week they are out in full force again.

The Colombian government has taken the most strict precautions to guard the most important towns of the country, especially Panama, which is considered to be perfectly safe. In spite of the strong garrisons, however, the rebels occasionally manage to get near enough to the towns to inflict damage by sniping. No organized attack has been made during the past two months.

The country is altogether unsettled in consequence of the continuation of the struggle. Business is paralyzed, as the merchants are afraid to trade under the present conditions. Exchange in London is at 130, and on New York it is 140. The people in the interior of the country are suffering as a result of the trade stagnation. The Colombian government, concluded Mr. Mallet, are exercising very strong precautions in order to prevent news affecting themselves from leaking out of the country.

Advices from other sources report heavy fighting last week in the interior from Savanna and Baranquilla. The rebels repulsed an attack of the government forces with heavy losses on both sides.

TRACTION CARS COLLIDED.

About a Dozen People Were Injured at Akron, O.

Akron, O., May 6.—Two Northern Ohio traction cars collided at the foot of a steep hill on North Howard street and about a dozen people were injured. The two cars were loaded with passengers and were traveling close together. For some reason the brakes on the second car failed to work, and it dashed down the hill at a terrific speed, striking the forward car, which had stopped to take on passengers.

Strange to say, no one on the second car was injured except the motorman, Scott, who sustained serious internal injuries. The rear platform of the forward car was crowded and all on it were more or less injured. The more seriously injured are:

John Rausch, Dennison, left leg crushed so that amputation will be necessary.

John Hobach, Akron, leg crushed; amputation necessary.

George Autenreith, Cuyahoga Falls, foot crushed.

Miss Georgia Copp, student, Akron, injured, about hips.

William T. Sawyer, attorney, Akron, injured internally.

A. B. Scott, motorman, Akron, injured internally.

James Mitchell, Akron, both legs broken.

MOST PLACES CLOSED.

Sabbath Observance Almost Generally Forced at Omaha.

Omaha, Neb., May 6.—The Sunday closing orders issued by Mayor Moores were in most instances observed Sunday. Two saloonkeepers in outlying porticos of the city were arrested for failing to bolt their side doors, and half a dozen bootblacks were also detected in the act of disturbing the Sabbath quiet. They were arrested, but were bailed out by "Mogie," the so-called king of the newsboys.

The mayor says he is satisfied with the operation of the orders which he laid down, but he has not decided just how stringent the directions for next Sunday will be.

The Trocadero theater remained open, but the Orpheum transferred its show to Council Bluffs.

GETTING A START IN LIFE.

If one would make a success of business or professional life, there is but one place for him to begin, and that is at the bottom. Carnegie, Frick, Schwab and a score of others who have become leaders in the business world, began there. So did President McKinley, Attorney General Knox and a majority of the members of the cabinet and members of congress. While not every lad who reaches success has been educated in the school of adversity, every one who rises to distinction has found that there is no royal road thereto. Millionaire's sons who expect to take their fathers' places as managers of great railroad systems are qualifying themselves for their future duties by donning overalls and working in roundhouses and shops or acting as engine-drivers. There are many and intricate details of the business they are to pursue, and the man who would make himself useful must make himself master of these details.

It is the little things that count; it is in them that savings may be effected and improvements suggested by men of brains and inventive genius.

Mastery of detail, which is an absolute essential to success, is gained only by diligence, hard work and close attention to business. The clerk or shop-hand who is afraid of doing more than barely enough to entitle him to a day's wages, who is watching the hands of the clock and longing for closing time, never rises to become a foreman or the head of a department. It is the youth who is willing and eager to work as long as there is work to do who gains recognition.

Next to honesty and truthfulness—prime essentials to all true success—patience and diligence are required of him who would gain promotion. "Seest thou a man who is diligent in business? He shall sit before kings." The kings of the business world were once common laborers. They would have remained so to this day had they been afraid of over-doing. It is not enough to begin at the bottom; one must begin there, but begin with the determination to make himself so valuable to his employers that they cannot afford to let him remain there.

GROWTH OF OUR EXPORTS.

A fact in which every American must feel pride and satisfaction is stated in a monthly bulletin issued by the treasury department. Although statistics are usually classed as dull reading, here are some that are eloquent with their story of American growth and prosperity. The official figures show that the United States stands in the fiscal year 1901 clearly and unquestionably at the head of the world's list of exporting nations. Her average monthly exportations for the nine months ending with March, 1901, were \$124,497,853, while those of the United Kingdom, her closest competitor, were \$117,816,246 per month during the same period. Those of Germany, the next largest exporter, were \$87,551,000 per month during the 12 months ending with December, 1900, and other nations as follows: France, \$56,467,000; Russia, \$29,550,000; British India, \$26,747,000; Austria Hungary, \$25,753,255; Belgium, \$23,568,000 and Italy, \$20,518,000.

The total domestic exports of the United States in the nine months ending with March are \$1,120,480,673, while the exportation of British and Irish produce in the same period is \$1,060,346,214, showing the exports of the United States to be \$60,000,000 greater than those of the United Kingdom, her greatest rival, during the term under consideration.

The United States, in the nine months ending with March, 1900, showed \$394,000,000 excess of exports over imports; in the same months of 1901 in excess of exports was \$521,000,000, a gain of \$127,000,000 in 1901 as compared with 1900.

Is this genuine prosperity or only the "apparent" prosperity, of which William J. Bryan prates? Let the facts be submitted to a candid world, and there will be no difficulty in deciding.

California has been in the habit for years for sending eastward exhibits of some of her products. Ohio is now taking her turn at sending an exhibit to California. It is composed of men. In the production of a first-class article in that line no section of the country can surpass the Buckeye state.

Prohibitionists in neighboring counties continue to hold "large and enthusiastic" conventions. We presume, as in the historic meeting reported by the late Hon. Hannibal Hamlin, the published accounts are true, one of those present being large and the other enthusiastic.

The Jacksonville, Fla., fire is the worst in the recent history of this country. Fortunately it comes at the beginning of the warm season, which fact, with the generous funds which will promptly be raised for the fire victims, will avert a great amount of suffering.

Manila has civil government at last. Better yet, it has no party which is "agin the government," and there is every cause for believing that Uncle Sam will soon have reason to become proud of the capital of his Oriental possessions.

With something like three score indictments returned by the Columbian county grand jury in liquor cases, there will be uneasiness in many a saloon until the proprietor learns "where he is at."

In showing honor to President McKinley the states which did not cast their electoral votes for him seem to vie with those which did.

The Democrats of Ohio have less use for Tom L. Johnson than for his barrel.

FAILED TO GET DIVORCE.

Samuel S. Loomer, of Toronto, Brought Suit in Wyoming Court.

Toronto, O., May 6.—Samuel S. Loomer, of this city, who has taken up a residence in Cheyenne, Wyoming, for the purpose of securing a divorce from his wife, Lillian Doolan Loomer, has been refused a divorce by the courts of the county of which Cheyenne is the county seat.

A copy of the decree has been received by Erskine & Erskine, attorneys for the defendant. It states in substance, that the court finds that the allegations of the defendant's misconduct, as set forth by the petition, are not true, and that during January, 1901, and at divers times since, the plaintiff has been guilty of infidelity. Loomer tried to get a divorce in this county and failed.

Mrs. Silas Mercer's Sudden Summons. She Leaves a Husband And Five Children.

Mrs. Silas Mercer, of Hookstown, dropped dead in the barn yard near her home Saturday morning. Apoplexy was said to be the cause of her death. Her oldest daughter heard her cry and ran to her assistance, but she was beyond the power of human aid when her daughter reached her side.

Mrs. Mercer leaves a husband and family of five children. Her sister, Mrs. Grim Shaffer, lives in Chester. She was also a distant relative of the Mercers who reside in Chester. She was buried from the late home at 10 o'clock this morning.

Manager Pauley Providing for Safety of Bridge Patrons.

J. P. Pauley, who has charge of the East Liverpool bridge, is making preparations for the safety of the pedestrians who will cross the bridge on circus day, May 16. He has decided to place a gate on the West Virginia end of the bridge in charge of two men and not allow the people to rush on it in too great numbers. The office will change money only and will have six tolltakers. He will also allow no vehicles of any kind on the bridge from 12:30 to 2 o'clock and from 10 to 11:30 p. m., and intends to space all wagons and street cars about 75 feet apart.

RISE IN THE RIVER.

It Was a Slight One And Did Not Last Long.

The rivermen were all smiles yesterday when they noticed that the water in the Ohio had started to rise, but it did not last long, for after a rise of six inches it again commenced to fall, and the marks at the wharf this morning registered 8.2 feet. The Keystone State, Kanawha and Ben Hur passed up yesterday and the Keystone State and Ben Hur will be down tomorrow night.

THE SURPRISE CLOTHING HOUSE.

Life Aboard an Arctic Boat.

The days and weeks pass without our taking any account of them. We get up at 6:30 in the morning. At 7 we feed the dogs. At 8 we have breakfast, and at 12 we dine. Then we work till 6:30, when we have supper, after which we smoke and play cards or chess till bedtime. It is not at all cold. Rarely does the thermometer descend below zero. Yesterday the sun shone gloriously. The ice reflected it with a blinding glare and in brilliant colors.

The ship has withstood all the assaults of the ice. It is splendid to see how it breaks up ice that is sometimes three or four feet thick. At other times, when it is even thicker, the ship is pushed against it at full steam. The shock splits and breaks it very often for a distance of 40 or 50 yards. The Duke of Abruzzi is always on the bridge and loses no opportunity of getting ahead. Sometimes he does not even come down to his meals. Whenever we get the smallest opening, he orders us to go on, and we are glad of it, because the more we advance at the present time the less we shall have to do next year.—Leslie's Monthly.

Traps In French.

A frequent trap in French for the unwary is the difference of meaning in similar phrases. For example, "faire feu" means to fire a gun, while "faire du feu" means to light a fire; "tomber par terre" conveys the idea of falling to the ground from one's own height, whereas "tomber a terre" means to fall from any height—in other words, to tumble down and to tumble off. In the same way "trahir de fat" means to call a man a fool and "trahir en roi" to treat him like a king. The English word "bore" may be expressed in two ways—"un raseur" gives the idea of an active bore and "une bassinoire" of a passive bore.—Academy.

Tobacco Under Shade.

A tobacco firm of Hartford has decided to put six acres of Sumatra tobacco under shade in the town of Suffield, Conn., this season, and an individual grower in Barkhamstead, Conn., will plant eight acres under the same conditions, says a New Haven dispatch to the New York Post. The two ventures together will involve an expenditure of from \$8,000 to \$10,000. In the Barkhamstead venture coarse cotton cloth will be used for shading instead of cheesecloth.

SECRET SOCIETIES.

Once a week or oftener the NEWS REVIEW will publish a department of lodge news. Officers and members of the various orders are invited to contribute. The name and address of the writer must accompany every communication.

The Jr. O. U. A. M. met Thursday night and transacted routine business. They received an invitation from the order at Toronto to visit them on May 13 and initiate several candidates. The invitation was accepted and a large number of the members of the local will go to Toronto.

The committee having in charge the entertainment to be given by the Rebekahs on May 12 have received word from Miss Dunning, an elocutionist of Columbus, that the date is satisfactory and she will be here. A number of local people have also been secured to take part in the entertainment.

WHEELING branch No. 504, of the Knights of Columbus, held a meeting last night at which the third degree was conferred upon a class of candidates by District Deputy Dr. Charles A. Wingerter. More than 200 Knights were present, including several from East Liverpool and Wellsville.

The L. A. of the K. of L. will hold a public dance at Rock Springs park May 17. Music will be furnished by Ormes' orchestra, and as this is the first attempt of the organization in the matter of entertainments, they are making an extra effort to establish a reputation.

Quick Eaters.

"Have you any idea," remarked the cashier of one of the largest lunch restaurants in New York, "how many minutes the average down town business man devotes to his midday meal?"

"At a venture," answered the reporter, watching the hurried play of knives and forks about him, "I should say 15 minutes."

"You set about the time usually estimated," returned the cashier, "but in reality half that time would be nearer right. The average time consumed for lunch by the patrons of this establishment is just eight minutes. The fact is," continued the cashier after the reporter had ventured a foreboding for New York digestion, "people find it such a trifling and unobtrusive matter just to get 'a bite of lunch' that few realize what a gigantic business it is merely to supply hungry people downtown at noon, because few bring their lunches with them, and from the formation of the city none can go home."

"This establishment feeds 3,000 people a day, and the amount of food required to care for that patronage is enormous." For example, when we put hash on the 'specials' enough is made up actually to fill a wagon. We are not the largest lunchroom, however."

Most Unwholesome. "I think I'll have some of those crullers," said Jones at the lunch counter. "Don't you want some?"

"No," replied Smith. "They don't agree with me."

"That so?"

"Yes; I couldn't even eat the hole in one without getting dyspepsia."—Philadelphia Record.

POLITICAL MATTERS.

William Grimes, of Kingfisher, Oklahoma territory, who has just been appointed secretary of that territory by President McKinley, is a former Perry county boy and a son of Washington Grimes, formerly of Monday Creek township. His wife is also a Perry county girl, being a daughter of Colonel N. F. Hitchcock, formerly of Junction City. Mr. Grimes has been a resident of Kingfisher for several years past, having formerly filled the office of United States marshal for that district, and has become one of the leading and influential citizens of that country.

Trolley Line to Martin's Ferry.

Steubenville, May 6.—W. B. Francis, of Martin's Ferry, representing a syndicate of capitalists, was here Saturday applying to the commissioners for a franchise for a street railway to be constructed from Martin's Ferry to this city this year. Much of the right of way has been secured. The road will pass through Burlington, Yorkville, Rush Run, Portland station, Warrenton, Brilliant and Mingo Junction.

W. H. Walker, the member of the state board of equalization from the Sixth district, announces that he will not be a candidate for the senatorial nomination in that district, retiring in favor of T. M. Watts, of Highland.

IN HIGH REPUTE.

The Great Author And Physician, Dr. A. W. Chase, is Remembered in East Liverpool.

All over the world Dr. A. W. Chase's recipe book is known, as also in many parts of this country his skill as a physician, and from the great success of his medicines the name will be handed down from generation to generation. Attempts are often made to sell other medicines over the reputation of the doctor—some go so far as to use the name "Chase," but they dare not use the initials A. W.—portrait or signature which is borne on every box of the genuine—the kind referred to by Mrs. George Hall, of No. 389 West Market street, East Liverpool, O., who says: "I was bilious—my head ached hard and constantly—there was a general feeling of weakness and depression. I was asked to try Dr. A. W. Chase's Nerve Pills and did so, getting them at Larkins' drug store, corner Sixth and East Market streets. The result was very good indeed, as the biliousness was overcome—the headaches cured and bodily and nerve strength furnished. Dr. A. W. Chase's Ointment I can vouch for in burns as a fine application."

Dr. A. W. Chase's Nerve Pills are sold at 50 cents a box, also Dr. A. W. Chase's Ointment at 50 cents a box at dealers, or Dr. A. W. Chase Medicine Co., Buffalo, N. Y. See that portrait and signature of A. W. Chase, M.D., are on every package.

TOUCH THE BUTTON

Task Allotted Mrs McKinley In Connection With Launching the Ohio.

PRESIDENT OBSERVED SUNDAY

Asked El Paso Citizens to Respect Day—He and Mrs. McKinley Attended Church—President Received Diaz's Representatives.

San Francisco, May 6.—The much-discussed question as to whom would fall the honor of launching the battleship Ohio has been settled by the announcement that the function will be performed by Mrs. McKinley. After the simple ceremonies preceding the event, consisting of short addresses by President McKinley, Governor Nash and Irving M. Scott, Mrs. McKinley will press the button and the released ax will sever the rope just at the turn of the tide at 12:25 p.m. Just as Mrs. McKinley touches the button, Miss Helen Deshier, of Columbus, will break the bottle of California wine over the bow and give the new fighting machine the name of Ohio.

To Leave To Meet Presidential Party.

Governor Gage and his reception committee, accompanied by United States Senator Bard, and the seven congressmen from California, will leave tonight for Redlands, Cal., where the presidential train will be met Wednesday morning.

General James M. Givens, president of the Ohio society, and William H. Jordan, vice president, left last night over the Santa Fe for Needles, where they will meet Governor Nash and his party and welcome them.

El Paso, Texas, May 6.—The presidential party reached El Paso, the gateway of Mexico, about 9 o'clock Sunday morning, and were to remain here until about noon today. President Diaz, of Mexico, had hoped to meet the president here and shake hands across the border, but as the Mexican congress is in session, he could not leave the capital. He sent a personal message to the president, however, and also dispatched General Juan Hernandez, the commander of the second military zone of the state of Chihuahua, personally to present his good wishes to the chief magistrate of the United States.

Mexican Officials Called.

Governor Miguel Ahumada, of Chihuahua, the most northerly state of Mexico, also traveled to El Paso to pay his respects, and these distinguished Mexican officials, accompanied by General Hernandez's staff in full uniform, were received by the president in his car at the station. After exchanging felicitations, the president requested General Hernandez to convey to President Diaz his personal good wishes for the health and happiness of President Diaz and for a continuation of the cordial relations at present existing between the two countries. President Diaz's message was as follows:

"City of Mexico, Mexico,
May 5, 1901.

"To the President of the United States of America, El Paso:

"When you arrived this day at the frontier of Mexico I wished that I might shake hands with you; but I send you as cordial a salute as corresponds with the cordial relations which exist between the two Republics of North America. I also send General Hernandez to express to you the same greeting."

(Signed) "Porfirio Diaz."

To this the president sent the following response:

President's Reply to Diaz.

"El Paso, Texas, May 5, 1901.
To His Excellency, General Porfirio Diaz, President of the Republic of Mexico, City of Mexico:

"It gives me great pleasure to reciprocate the courteous greeting of your excellency and to express my most cordial good wishes for your health and happiness and for the continued prosperity of the Mexican republic, to which we are bound by so many ties of mutual interest and friendship."

(Signed) "William McKinley."

It being Sunday, the president had requested the local committee here not to arrange any program for the day. His wishes were respected and the military parade and official exercises were postponed until today. The president and Mrs. McKinley and the members of the cabinet attended the Station Street Methodist church in the morning and in the afternoon some of the party went for a drive.

After dark last night the Mexican band, which had been brought from the City of Mexico by General Hernandez, serenaded the president and Mrs. McKinley at the train. No horns nor drums were used, and the soft, languorous Spanish airs strummed on guitars and mandolins in the cool of the evening, were thoroughly enjoyed. While it was a comparatively quiet day in El Paso, notwithstanding the large number of strangers in town, it was otherwise in the Mexican city of Juarez, just across the Rio Grande. May 5 was the anniversary of the defeat of the French invaders at Puebla, and was celebrated as our Fourth of July in the United States.

A Brutal Bull Fight.

The great feature of the celebrations was the Spanish bull fight. A famous matador had come to Juarez from the City of Mexico for the oc-

casion. None of the members of the president's immediate party attended, but bull fighting is the national sport in Mexico, as of Spain, and General Hernandez and the governor of Chihuahua occupied a box overlooking the ring. The fight proved to be more than usually bloody and brutal. The net casualties were four bulls dispatched, one horse killed, two picadors unhorsed and one torero severely but not fatally wounded, as he was helped over the fence surrounding the arena by a maddened bull.

Governor Murphy, of Arizona, and his staff were to participate in the formal greetings today. One of the features of the program today was to be a Mexican breakfast, with the typical Spanish dishes, for the ladies of the party.

A QUIET SUNDAY.

Saloons In Kansas City Were Shut Tight.

Kansas City, Mo., May 6.—Saloons in Kansas City were closed tight Sunday, the first time in about six years. But one arrest for failure to respect Mayor Reed's order was made, and one of the quietest days for a long time was the result. Saloonkeepers spent an active day, however, circulating petitions to the mayor and police commissioners, giving their side of the question and requesting a resumption of the old regime. A mass meeting under the auspices of the Law Enforcement league, attended by 500 men, was held, and strong resolutions commanding the mayor and police commissioners for their action were adopted. It was determined to keep up the agitation for Sunday closing and a committee was appointed to secure evidence against saloonkeepers who may fail to observe the law.

LIPTON ENTHUSIASTIC.

Said He Thought It Possible He Would Win the Cup.

Southampton, May 6.—None of Sir Thomas Lipton's party came ashore here after the return of the Shamrock II from the Spins. Sir Thomas, it is asserted, is more enthusiastic than ever.

"I consider it demonstrated beyond question," he said to a representative of the Associated Press, "that the new challenger will make the finest fight ever made in a contest for the American cup. I do not know what America has to array against us, but I am convinced that the Americans will be well pleased to see a good race and will bear me no ill will if, as I now think it possible, I should win the cup."

OVER TWENTY ENGAGEMENTS

Fought by North Manchurian Division of Russian Army.

St. Petersburg, May 6.—The Russky Invalid published details of the recent operations in Manchuria. It appears that the North Manchurian division, under General Zerpitski, fought over 20 engagements, losing altogether 24 men killed and 7 officers and 61 men wounded, two officers having died of their wounds. A quantity of guns and rifles were captured.

The total results of the operations is that of three bands, which at the beginning of the year were menacing the peace of Manchuria, two have been annihilated, according to the Russky Invalid, and the third, after sustaining a number of defeats, is now being pursued by the Russian division.

CHAFFEE PRAISED TROOPS.
American Cavalry and Artillery Left Pekin.

Pekin, May 6.—The United States cavalry and artillery left Pekin to march to Ton Ku. Imposing farewell ceremonies attended their departure. Sir Alfred Gaselee and the other British generals, with their staffs, were present, and the British commander sent a detachment of Baluchis, who escorted the Americans outside the city wall.

General Chaffee publicly thanked the cavalry and artillery for their services in the international relief expedition and for their behavior since, which has been, he said, a credit to themselves and their nation.

The infantry and headquarters' staff will leave by rail as soon as the transports arrive at Taku.

RELIEF FOR HUNGRY

Trains and Boats of Provisions Pour Into Fire-Swept Jacksonville.

10,000 HOMELESS PEOPLE FED

Times-Union and Citizen Were to Estimate This Morning the Total Property Loss at About \$11,000,000. Martial Law Rigidly Enforced.

Jacksonville, Fla., May 6.—The hunger of 10,000 homeless people was satisfied upon the arrival of relief trains and boats bringing provisions from neighboring towns. A commissary was established in the center of the city and thousands were fed.

The relief fund is growing hourly and every mail brings offers of assistance.

An order was promulgated under martial law requiring all merchants whose stores were spared by the conflagration to open their doors and sell to all who asked.

The streets were crowded Sunday with shoppers who lost all in the fire and many stores were to remain open all night.

Number of Refugees Were Large.

It was estimated that 3,000 persons had left the city and every outgoing train was crowded with refugees. Five carloads of tents were received, the property of the state, which are to be used by the homeless temporarily. Another shipment of tents is expected from the government to arrive today.

This morning the Times-Union and Citizen were to estimate the total property loss at \$11,000,000.

These figures are based upon an itemized statement furnished by a volunteer committee of citizens.

There were rumors of loss of life last night and the river had been closely watched during the day. Many persons have confirmed the report of loss of life at the Market street wharf. Numerous advertisements appeared in the local papers asking for aid in searching for persons who are missing.

As many had left the city for the gulf, it is impossible to ascertain who had been lost in the Market street pier tragedy.

A committee of Atlantaens was here to deliver \$1,000 worth of provisions, promising another car during the week. Atlanta also furnished by express 1,000 feet of hose.

Martial law was being rigidly enforced and the town was quiet last night, although much anxiety prevailed because of the threats said to have been made by the negroes that they would obtain provisions by force at their first opportunity.

In the eastern portion of the city the debris was still burning, but no further outbreak of the flames is anticipated.

Mayor Said Help Was Needed.

New York, May 6.—The Jacksonville emergency committee of the Merchants' association, of this city, organized to send relief to Jacksonville, Fla., received the following telegram:

"Tallahassee, Fla., May 5.—Food supplies needed as the temporary relief. Jacksonville association will issue call, which will be furnished you, giving class of supplies needed. The people of Florida appreciate your noble work; in their name I thank you."

"Jacksonville, Fla., May 5.—One hundred and thirty-six blocks, covering best residential and business portion of city, destroyed; about 10,000 people homeless and thousands destitute. Our people responding liberally, but demands for help beyond our ability to meet."

J. E. T. Bowden, Mayor."

To Mayor Bowden a telegram in reply was sent, telling him that the citizens of New York would respond nobly to his appeal for that which is necessary in the way of food, clothing, cots, household utilities, drugs, etc., as soon as they knew just what was needed, and that the emergency committee would meet today, together with the old Galveston relief committee, to take immediate action upon receipt of intelligent information.

Telegram From the President.

Tallahassee, Fla., May 6.—Governor Jennings received the following telegram:

"El Paso, Tex., May 5, 1901.
The Governor of Florida, Tallahassee, Fla.:

"I have just learned of the calamitous fire that has swept over the city of Jacksonville, and hasten to express the deep sympathy, in common with our country, I feel for those who have suffered. The government will do all it can in the work of relief."

"William McKinley."

Governor Jennings acknowledged the receipt of the president's message of sympathy in the following telegram:

"Tallahassee, Fla., May 5, 1901.
To Hon. William H. McKinley, El Paso, Tex.:

"We appreciate your sympathy for the suffering of our people caused by the Jacksonville conflagration, which is appalling, and thank you for the aid of the government so generously tendered. Estimated that over 10,000 are homeless and that loss will reach \$15,000,000. No lives lost so far as we know. Sufficient funds have been placed at disposal of relief association to provide for immediate nec-

sities. Perfect order prevails. I beg to extend the gratitude of the people of Florida to you.
"W. S. Jennings, Governor."

CONGER WAS LENIENT.

LESS BLOODTHIRSTY THAN THE OTHER MINISTERS.

Denied That Missionaries Looted. China Did All She Could as to Punishments.

New York, May 6.—Minister E. H. Conger, who has lately returned to this country, furnished an article on the Chinese situation, which will appear in the coming number of Leslie's Weekly. Mr. Conger said in part:

"Unless matters have changed very materially since I left China six weeks ago, the powers will reach some concession in regard to China very soon. Of course, it is difficult for 11 men to agree on anything, especially when they have 11 governments with different views behind them. China is perfectly willing to do anything that the powers agree upon—that is, anything within her ability to accomplish. She is only too anxious to expedite these matters and settle down to peaceful pursuits again. Of course, the powers must not demand an indemnity which China will be physically unable to raise."

"It is not certain that, finally, some nation may not demand territory of China in lieu of a money indemnity. It is perfectly certain that if any nation does make this demand, the partition of China will follow, and this will inevitably cause much dissension between the powers. These difficulties and disputes would be long in the settling, and would lead to terrible confusion in China."

"Russia has so far mitigated her demands that there is not now much danger of serious difficulty between her and Japan. Personally, I am very much in favor of the continued existence of China as an empire, governed by her own emperor. It will save us and all the rest of the world lots of trouble if the integrity of the empire is maintained."

"As far as the punishment of Chinese officials goes, China has already done all that she could. Something out of the ordinary had to be demanded by the powers, for it takes a good deal of punishment to impress this people, and this was no ordinary offense. In some cases the officials whose punishment was demanded were more powerful than the government, and then, of course, the punishment could not be enforced. Except in these cases, everything was done as the powers demanded."

"At home I understand that I was thought bloodthirsty, but in China I was the most lenient of all the ministers, except one. We know the conditions there better than those who were not there could possibly know them. Diastic measures were demanded, but I do not think that we were cruel. What would seem a severe punishment to us at home, would not impress the Chinese at all, for the reason that they indulge in so many cruel and unusual punishments. The reports of cruelty on the part of soldiers have been grossly exaggerated, though I am sure that there was plenty of brutality on the part of individual soldiers. As an army, the allies were exceedingly well behaved. Nor were the stories of unrestricted looting true. In Pekin the soldiers took what they needed, of course, just as we would have seized anything that we needed while we were caged up in the Compound, had we been able to fasten upon anything that would help us to withstand the siege. As for the stories of missionary looting, they are undisguisedly false. The missionaries did not loot."

CUBANS REACHED HAVANNA.

Conference With Other Delegates Likely Tomorrow.

Havana, May 6.—The special commission of the Cuban constitutional convention, who went to Washington to obtain a better knowledge of the intentions of the United States government regarding Cuba, arrived here. They were met by a delegation of Cubans and by Colonel Scott, representing the military governor.

Senor Illorente said that the commission had held several conferences on the Havana during the trip and that an understanding had been reached. He explained, however, that it would be necessary to hold another meeting today, when the report of the committee would be drawn up and a call issued for a conference with the other delegates Tuesday.

Young Men's Society Celebrated at St. Petersburg—Nearly 800 Members.

St. Petersburg, May 6.—The Young Men's Society for Moral and Physical development, founded in St. Petersburg by Mr. James Stokes, of New York under the protection of Prince Alexander of Oldenburg, celebrated last evening its first six months of existence.

Prince Alexander opened the meeting and addresses were delivered by President Tourchaninoff and Secretary Sidoroff, who explained the objects of the society, virtually identical with those of the Young Men's Christian association in the United States and Great Britain, and reviewed the work already accomplished. Prince Michael Khilkoff, minister of railways, was present.

The society now has nearly 800 members, of whom 300 are enrolled in the evening classes. It has an orchestra and two excellent choirs. The meetings are held under the direction of orthodox priests. They are well attended and the organization is growing in favor with the Russian associations.

Two members, Father Vassilieff, of the Orthodox church, and Mr. Franklin Fay Lord, have been elected delegates to the June conference of the Young Men's Christian association in Boston and will attend the function.

ALL STILL IDLE

NO CHANGE IN PLUMBERS' STRIKE SITUATION.

Committees on the Lookout to Prevent Men Coming in To Take Their Places.

There have been no new developments in the plumbers' strike since the four firms signed the scale on Saturday, although both sides have lined up for a long fight.

Committees have been appointed by the union to look after the various matters connected with the strike, and they give out statement that they are determined to stand out for the original demands. A committee visits the passenger station upon the arrival of every train to prevent anyone getting in without understanding the situation. A like committee looks after the river traffic.

No attempt has yet been made to import men, although it will be necessary to make a move of this character very soon unless the bosses make terms.

Affairs of the trade are a little slow just at present owing to the point not having been reached in the erection of new structures where the plumbers' work is necessary, but within the next two weeks the work will be in readiness and men will be in demand.

Strike headquarters have been established in the Smith Fowler building, and the members are required to register there once each day in order to secure their benefits. The organization has a substantial defense fund and are also receiving aid and support from their national headquarters.

One of the boys held Robertson while the other applied a red-hot iron to his legs, burning him frightfully.

LOCAL SALOONISTS

Said to Be Among Those Who Were Indicted By the Grand Jury.

Deputy Sheriff Howard Noragon was in the city yesterday and it was reported that he had in his possession eight summons which were to be served upon violators of the liquor laws, against whom the grand jury found indictments.

At least two local saloonists have two counts each against them, and it is said they will come up in common pleas court this week.

Rather Outspoken.

"When a man in the west likes not another," said a British Columbia man, "he is in no way disposed to hide that fact under a bushel basket or to conceal it from either the gentleman disliked in particular or the rest of the community in general."

"I remember an example of this trait that came under my notice some years ago in Idaho. A certain old fellow named Haas ran a paper there, and he and Judge Buck, the Judge who rendered the celebrated decision in the famous 'Poor Man' Tiger litigation, were sworn enemies. Another old timer named Cheney disliked Haas and Buck and had it in for them both."

"One night at Wallace a dinner was given, at which Buck, Haas and Cheney were present, and at a late stage in the proceedings Cheney was called upon for a speech. I don't remember the topic he chose or how he brought it in, but when he got through Cheney left in the minds of his hearers no manner of doubt as to how he felt toward the other two."

"Gentlemen," said Cheney as he hung unsteadily to the end of the table, for the wine had been passing freely, "old man Haas says Judge Buck is a perjurer and a blackmailer, and Judge Buck says old man Haas is a horse thief and a liar. As both the gentlemen are extremely well acquainted with each other and should know whereof they speak, I do not feel called upon to dispute either statement."

"And then he sat down amid tumultuous applause."—New York Tribune.

Waldersee May Return Home.

Berlin, May 6.—"In view of the favorable development of events here," says the Pekin correspondent of The Lokal Anzeiger, "it is possible that Count Von Waldersee will return home about the middle of June."

Some Odd Mistakes.

An urban chemist advertised in his shop window: "Artificial eyes. Open all night." Away down south in front of the postoffice in an inland town may have been seen this legend, "Post here letters too late for the next mail." In a picture of the departure of the pilgrims from Delftshaven the artist placed a large steamer in the distance leaving the harbor under full steam.
